

## **ZULF WILL TOTALLY DESTROY THE UNITED STATES OF AMERICA IF BILL GATES IS NOT KILLED**

ZULFIKAR MOINUDDIN AHMED

I am infinitely superior in every way to Bill Gates. He always talked about how he knew so much about computer programming and I held senior roles in software architecture in New York between 1995-1999 where I was working on a lot of serious coding for money. He spent his time with promoting his great knowledge and genius in coding but never worked in a serious role doing real coding at all. He is infinitely inferior to me in actual software architecture and just exploited other people's talents. Why is this man still alive. I will totally destroy the United States of America and erase the nation from the face of the planet if this continues. United States of America has an obligation to ensure that I obtain my legitimately earned \$620 million from D. E. Shaw & Co. and Christine Lagarde so I can move back to San Francisco and implement my plans for two new companies. I don't want this Bill Gates even alive. Bomb and kill him. Use pistols and commandos. Do whatever you have to do. I am American and I will not be mistreated like this in my own country where a total hick illiterate charlatan who was a racial murderer all his life, and who holds totally primitive uncivilised ignorant convictions like 'whites are intrinsically superior' which not even children of ten hold in the civilised world today is now obstructing and destroying my life with support from the governing authority in the nation.

Why do people in American Government get paid for if you cannot read and apply the United States Declaration of Independence Preamble and fulfill your purpose, the secure natural rights of Americans such as myself, and not consider liars, murderers and robbers and thieves like Bill Gates more valuable than myself.

### **1. ZULF DOES NOT CONSIDER MEASLY INTERESTS OF NATION STATES AS MORE IMPORTANT THAN MY OWN**

United States had been lax about Bill Gates' long record of racial murders from early 1970s. Zulf is fine with measly Nation States being lax about issues that do not interfere with my self-interests. For example if United States, a mere measly nation state, had been lax about fishing industry in Maine, that would be just fine with me. But this lack of accountability for a racial murdering record of Bill Gates eventually affected Zulf, and that is unforgivable. Zulf prefers that measly nation states like United States of America be lax about things that are *strictly distant* from those that could even remotely harm my self-interests. Obviously I will give priority to my self-interests over the existence of measly nation states if they get in the way of my natural rights, my self-interest. I am, after all, a man of reason.

## 2. ZULF DOES NOT BELIEVE IT IS RIGHT TO WIPE OUT UNITED STATES WITHOUT CAUSE AND WARNING

I am an Archangel of Heaven, and do not believe in wiping out any measly nation state from existence without cause or warning. It's not just to do that. So I am providing some cause and warning. I am not an uncivilised brute. I give cause and warning before wiping out measly nation states from existence.

## 3. UM NO ARCHANGELS OF HEAVEN HATE NUCLEAR WEAPONS

You see, United States Government, Nuclear Weapons are directly the products of *Hell*, and I am an Archangel of *Heaven*. We hate nuclear weapons. In fact I have been promoting a total ban of nuclear weapons from Earth. It's an interesting story from the perspective of Archangels what produced these Hellish things on Earth. It's quite fascinating. So another Archangel, names *Azrael* was near the Milky Way in the period 1920-1960 not that close this world but his various Death Angels were quite rude and ruptured the realms of Life. Now Life Angels were quite annoyed by it, and there was a struggle to push Death Archangel *Azrael* back. Some of the Life Angels are my allies, and I was a bit lazy because I was not directly involved. Anyway, one thing led to another and Hellish things like nuclear weapons spawned on Earth. I hate them. Get rid of them from Earth. These are not Heavenly.

## 4. UNFORTUNATELY YOU CANNOT HAVE UNITED STATES OF AMERICA AND BILL GATES

Bill Gates I have identified as an extremely evil and malevolent Demon. There are worlds out there where he would have been killed with bloody lethal means even before he reaches two minutes of age, and that would have been a good idea in 1955. Now I am an Archangel of Heaven, and given the United States Government's Alliance with Bill Gates, even with 34 years of being American, I am seeing the government with deep suspicion. I am afraid I cannot allow United States of America to exist at all if Bill Gates is alive.

In other words you have a binary choice from me. Either USA or Bill Gates but not both. I will review your case if you eliminate Bill Gates. I will ensure that USA is completely erased from existence otherwise. Remember, USA is just a container. The Human Race is my beloved people. We'll keep the people and throw away USA. I don't like your friendly cozy relations with an Evil Demon. If I do not make an attempt I will have various difficulties after death I am keen to avoid. I do apologise, but that is simply what I can do for you.

## 5. YOU DON'T HAVE ANY LEGITIMACY UNITED STATES GOVERNMENT IF YOU DO NOT SECURE NATURAL RIGHTS OF AMERICANS

You can use whatever excuses you want but you see you never had a Constitutional Convention for Amendment to US Declaration Preamble, so you are on slippery ground if you pretend that verbal chicanery will make you legitimate if you just pompously proclaim "Oh we stopped caring about natural right of Americans since the war." That is logically equivalent to saying "We've been a vile criminal enterprise and not a legitimate government since the war." That won't keep you around for long.

ZULF WILL TOTALLY DESTROY THE UNITED STATES OF AMERICA IF BILL GATES IS NOT KILLED

#### 6. SEEKING NATO MEMBERSHIP OF UKRAINE IS IRRELEVANT

You see, you, United States Government have been a lawless illegitimate enterprise since 1950, from NSC-68 because you did not pay attention to the fact that without basis in US Declaration and Constitution, it's all chicanery and sophistry. Your entire enterprise was fully and totally illegitimate, and so when push comes to shove, I'll just push Europe and Asia together, who are more careful about legitimacy and they have *much more experience than 245 years* and they will lock into Eurasian Alliance and you will be the lawless barbarians with a lot of fireworks staring uncomprehendingly at how this was even possible no longer considered even a civilised nation and marked as *Badlands* on the map. You really think you can win against an Archangel in this game, United States Government? That's not even remotely likely.
