

THE GREAT PHILANTHROPIC HEART AND FAIR VALUE COMMERCE CAN COEXIST AND OUGHT TO

ZULFIKAR MOINUDDIN AHMED

For me more than a decade of work for the great love and service to my Beloved People the Human Race is a serious issue. I have given the Human Race three advances of fundamental value without any financial compensation. (a) Final theoretical physics, *Four-Sphere Theory* which was a decade of labour without any income or support, exceeding Albert Einstein and Erwin Schroedinger (b) Universal Human Moral Nature proven independent of Ethnicity, exceeding Immanuel Kant and Friedrich Nietzsche (c) Certain and strong full spectrum of Virtues for Eudaimonia extending Aristotle. These have been philanthropic and I have done these out of my great love for my Beloved People the Human Race.

At the same time I am a Finance Professional from 1995 and understand quite well the value of trade and fair value exchange and liquid markets. And I am quite willing to provide services for compensation as well.

There is no schizophrenia in different points of view. I do have great love for my beloved people and some things I do without any need for financial compensation. On the other hand, I do other things for financial compensation. I am not confused about them and do not find them to be in conflict at all.

1. BILL GATES WHY DON'T YOU REVIVE SOME GOOD PEOPLE?

If you revive Albert Einstein, Erwin Schroedinger, Immanuel Kant, Friedrich Nietzsche, and Aristotle and form a team to go against Zulfikar Moinuddin Ahmed. Then I will admit that my opponents are a serious challenge. But all this ethnic rubbish like "Whites are Superior" by intellectual midgets like you are not powerful enough to challenge my Genius.
