

THE WORLD IS READY FOR UNIVERSAL LAW FOR BLOOD META SACREDNESS

ZULFIKAR MOINUDDIN AHMED

Bill Gates' vile violation of my blood meta is abominable disgusting horrific evil and bad. But it is at the same time a great opportunity for my beloved people the Human Race. Jon Spencer revealed that Jewish law restricts blood meta corruption as non-kosher. I knew that Christians and Muslims have similar laws, and also the mostly non-religious Chinese. This is such a beautiful convergence of agreements that I can hear a *symphony* of accordance across all religions and peoples of the world.

This is therefore a great moment in history when we find that we can have a concordance of Jewish Law with Christian and Muslim law and then secular international Law can be rationalised in the UN General Assembly with addendum to Universal Human Rights to include inviolability to blood meta across the world.

I knew all this horrible suffering I endured from Bill Gates' vile activities in my blood meta will lead to something great. This is the great moment when Human Race can have deeper accordance between religious and secular law that is sacrosanct to all Nations of the world. This is a moment to rejoice and sing songs to how in the end we do have natural equivalences that can be made explicit and exact. This is a respite, a quite moment in the Tower of Babel where the cacophony is replaced by harmony.

Let there be Blood Meta protections for all people everywhere on Earth as Universal Law sanctified by Judaism, Christianity, Islam, Buddhism, Hinduism and all the Nations.
