

# **BILL GATES IS A DISGUSTING PARASITIC PEASANT MAN AND WE IN FINANCE ARE BENEVOLENT AND GOOD AND NOBLE PEOPLE**

ZULFIKAR MOINUDDIN AHMED

In one interview, this man, Bill Gates dared to call Finance *parasitic*. It is he who is parasitic, and not we. We are good and noble and benevolent and we serve the best interests of human race. He is parasitic. He harms people and murders people all day and lies. He carries around jars of human feces in public. We are Finance and we serve the good of all people. We allow people to flourish, give them a helping hand when they need to do something productive. We secure people's retirements. We safeguard their precious wealth. We are not parasitic. We are good, noble and just. We are the philanthropic ones.

This Bill Gates lies and says he has cool programs. Where are his cool programs? I have mine right here [1]. Where are his cool programs? He never did any cool programs. He just exploited others. He used Paul Allen. He used thousands of people at Microsoft. He has no talent in coding. If he had any he would show it. I don't have problems showing my code. Where is his code? He lied about his SAT score, said it was 1590 when it was 1290. He is a liar, not Noble like me. I don't lie about things, especially small petty things. Nietzsche's Beyond Good And Evil Chapter 9 tells you that Noble Souls do not lie and are proud of their truthful nature, as I am. He is proud of his lies; he is low, ignoble, bad.
