

## ZULF'S OPEN LETTER TO WHITE ORIENTED PEOPLE

Dear White Oriented People,

Look, I will be quite blunt. I am American, okay? You may or may not be American but I am American. The proof is in the United States Government issuing me my Permanent Residency in 1996 and me immigrating to America in 1987.

Now if you don't like that, your noisemaking will do nothing. You're at most 15% of the whites and so why don't you make like a tree and stop making noise? You see the US Immigration Laws came out of a lot of rancorous democratic politics and you, the nativist types, lost this battle already by 1965 and you have no chance whatever of ever pushing America is for all Americans. That's not going to happen in 20 million years. Just accept it.

Now for the good news. You live a short life like everyone else and then you are going to be dead. Why are you spending your short life in this sort of ideology? Just respect good people of good character. Not all white people are good; and not all non-white people are good.

Instead of being idiotic and focusing on superficial racial and ethnicity characteristics in people, focus on Character and morals of people. You'll live your short life happier, and you won't cause as much trouble for people trying to do their thing following the American Dream.

So why don't you change your outlook in politics? No one is forcing you to hate all sorts of people who never did jack shit to you out of a need to hang with your posse. Let me tell you right away, non-white people don't think you're superior. We think you are problem kiddos. We think you bring strife for no good reason. Why don't you grow up and just live in peace. I can assure you non-white people are 90% of the world and are not going anywhere. They won't even notice you you are such a tiny minority. Why do you want to be unpopular with 90% of the world? Is this rational?

Thanks,

Zulfikar Moinuddin Ahmed
