

HOW TO AVOID BRIGANDS AND HIGHWAY ROBBERS LIKE BILL GATES DESTROYING FINANCE

ZULFIKAR MOINUDDIN AHMED

Finance is a noble enterprise of Civilisation. These brigands, robbers, murders and extortionists like Bill Gates have been routinely extorting some of our institutions by capturing transfers of money, disrupting Financial transactions by stealing money by power tricks and so on.

Janet Yellen, the Treasury Secretary and Jerome Powell ought to hire a good staff at the Fed for safe Financial transfers in the Fed by paper shuffling of Fed accounts. This will vastly reduce the destructive corruption of our great Financial infrastructure from these malevolent robbers, murderers, and extortionists like Bill Gates.

H. Smits of Bank of New York Mellon could, for example, ask to transfer BoNY Mellon money from their Fed account to Deutsche – for me \$0.5 billion – and Deutsche would have \$0.5 billion credit at their Fed account and they could create an account and put \$0.5 bn of their own money into TIPS and hand me control of it.

This seems cosmetic unless you know the habits of predators like Bill Gates. Bill Gates is high in various business meta and uses illicit powers to control banks in various ways (he was able to totally blockade my Wells Fargo Personal account so on one could put money into it of size). US Federal Reserve has protections against him better than many bank transfer routes that Bill Gates can extort. And he does this all day and all night by the way. So just do all major bank-to-bank transfers in the US Fed accounts. This will secure our Financial system a bit more.
