

WHITE PEOPLE IN AMERICAN GOVERNMENT ARE TOO CORRUPT TO UNDERSTAND A THING

ZULFIKAR MOINUDDIN AHMED

The World Order is mine, and it is a natural rights security World Order. The World Order guys at United States Government are considering it. But so are Eurasian Powers.

The goal is natural rights security of all eight billion people. Now United States Government is glib and thinks that the problem is to secure natural rights of people in Asia, Africa, South America primarily while in fact they are routinely supporting Bill Gates who egregiously and intentionally violated *my* natural rights which they are tasked to secure by US Declaration of Independence Preamble.

Thus there is no guarantee that 1.4 million whites in American Government will even be in government once there is a push and reckoning of all governments from Eurasian Powers for security of natural rights.

Now if they were wise, which they aren't, they would say, "Well, this natural rights security World Order is good. Why don't we kill Bill Gates because he is a fly in the ointment and get a good seat at the table for a natural rights World Order."

Instead, being terminally corrupt, they will say, "Bill, why don't you not do murderous destructive harm to non-white Americans which you have been doing for five decades and we didn't bring you to justice all this time." And Bill Gates will say, "I want to keep doing it and destroying and murdering non-white Americans because I feel like it." And American Government officials will say, "Well, ok."

1. YOU ARE ROTTEN TO THE CORE IN CORRUPTION AMERICAN GOVERNMENT

You can't even see how rotten to the core you are in corruption. You see, England, France, Germany, has never seen anything so horribly corrupt at all. They only read about it in Livy's History of Rome or Suetonius' *The Twelve Caesars* or some other thing. You are so corrupt that you make Russia during the scramble of privatisation look squeaky clean. Why don't you kill criminals instead of being their best friends?
