

BILL GATES CONTINUES TO THREATEN MY LIFE AND USES BLACK MAGIC TO DESTROY MY HEALTH AND LIFE

ZULFIKAR MOINUDDIN AHMED

We know from US Government consider that only in America and nowhere else in the world in any continent would Bill Gates *not be killed* for what he has already done. UN Security Council expert judgment has been that for War Crimes in my Deep Interior he is condemned to death.

American government, which is my own government since I am Asian-American with Permanent Residency from 1997, USCIS# 046-077-179, that is perfectly up-to-date and valid to 2031, has refused to comply with fundamental Constitutional precepts to secure my Right to Life for which they are obligated to eliminate Bill Gates because they can never prove beyond a shadow of a doubt that my Life is not threatened if he still lives.

It was not I but FBI that had discovered that Bill Gates uses Black Magic against people. Now this needs to be understood since established philosophy of materialism does not allow understanding of what black magic is in actuality. Well, black magic is power that is like US Industrial power or US Military power that is used in meta. It is distinguished from other types of power in this way: it is power specifically designed to affect biological health and body of individuals. Bill Gates had been bragging that he was a master of black magic powers since his youth.

Bill Gates is a savage, brutal, disgusting, vile, murderer. He has many murders that he has committed with black magic in the last five decades. He says he's big, so he has arbitrary right to kill 'little guys'; he says that he's white, so he has 'white right' to harm arbitrary non-whites. These are not views of civilised gentlemen in America, in Europe, or in Asia, the three continents I know. I do not appreciate American government bamboozling the American People and the world regarding his 'prominence'. He is a disgusting vile filthy criminal who lied about his great intellectual and technology talents and is in reality just a barbaric savage who deserves to be beaten to a pulp with all his bones broken and set on fire after gasoline is poured on his dead body and left to die without burial on the side of the highway without anyone caring about him.
