

ZULF ASKS UNITED STATES GOVERNMENT WHY YOU DESERVE GLOBAL HEGEMONIC POWER?

ZULFIKAR MOINUDDIN AHMED

There are eight billion people in this planet, United States Government. You want Global Hegemonic Power. That's fine. Anyone can want Global Hegemonic Power. Now I am American, have been in the country for 34 years, have had Permanent Residency for 24. I worked in the industry, had nontrivial senior positions. I am magna cum laude from one of the best universities in the entire world, Princeton University. I have paid my taxes and have a clean record of following the laws of the Republic.

Without any cause a racial murderer Bill Gates proceeds to violate all religious, white, national and international human rights laws to destroy me. And you collude with him. That's morally so horrible and degenerate, so vile and evil, so criminal that one has to ask: Why do you want Global Hegemonic Power, United States Government? You're not good. You're criminal, malevolent unjust and evil. You would rather destroy a man who is a good man, a virtuous man, and in fact an immortal genius and collude with an career racial murderer, a charlatan, and evil man, and harm the good man siding with the evil man.

Why do you think a moral race like you deserves you to be Hegemonic Power, United States Government? You don't deserve it. You see, things are not that complicated. You can blow hot smoke up all sorts of people's asses, but in fact, bad and criminal people do not deserve global hegemonic power.

Why should I allow you to have Global Hegemonic Power United States Government? Did you impress Zulf with your actions? I have a great Conscience, United States. I love my beloved people the Human Race deeply. I don't want you to harm them as well.

1. I AM ARCHANGEL OF HEAVEN AS WELL

I am not Christian or Muslim or Hindu or Buddhist. My faith is that I have been an Archangel of Heaven for billions of years and was born to human race in Bengal in 1973. I will be human till my death. I look like this today.

I have diabetes, am a smoker, and Bill Gates hurt my front teeth with Black Magic. There is no contradictions here at all. My faith is my reality, United States Government.
