

EVOLUTIONARY EXPLANATION OF CUNTS LIKE BILL GATES

ZULFIKAR MOINUDDIN AHMED

Zulf will here outline how it was a series of deep errors by the United States Government that led to the evolution of a cunt like Bill Gates.

For the purpose of this note, we consider some features of Bill Gates that makes him a total cunt.

- Bill Gates is glib and has feelings of invulnerability because he is white in America and has some White Control power
- Bill Gates does not respect my Natural Rights and claims 'White Right' to cut into my eyes and cause horrible destruction and pretends that white people in US Government will find all his crimes acceptable and reasonable

The source of the evolution of cunts like Bill Gates is that United States of America, which was always actually just a Multi-Ethnic Classical Liberal Democratic Republic, happened accidentally to have a white majority and the United States officials were *lazy mother fuckers* who used White Control meta for various essential features like US Military, like US Justice Department, many agencies. Instead of being professional and non-ethnic and pure Republic, which is what I might have demanded from 1776 all the way through, American Government was literally awash with all manner of provincial buffoons who did not clean up the act of the United States Government for centuries, so that there was always problems and confusions that they thought would just disappear without effort. So they kept on being incompetent decade after decade, century after century with tiny minute adjustments only when some people's ass was on the line here and there, and so they gave these glib racial supremacist cunts like Bill Gates the feeling that they had automatic privilege and so Bill Gates has been harming non-whites for four or five decades with impunity and thinks that all the white people in United States Government are secretly on his side and he is invulnerable. So United States of America made errors and got confused and fucked over the Native Americans and fucked over the African Americans etc. for centuries and *created monstrous cunts like Bill Gates* and then coddled them. If you want to clean up shop, you better clean up shop right now because Zulf is not your mother. Zulf is not white and Zulf will abolish the whole US Government and wipe out all the goddam US Federal Employees and replace the lot of you in two minutes unless you clean up your show. I have zero time for ethnic tribalist provincial rubbish. I want a tip top show from the United States Government.
