

## BILL GATES IS NOT JUST A BAD GUY HE'S A MODEL OF A CUNT

ZULFIKAR MOINUDDIN AHMED

The English word 'cunt' was neglected for a long time. It was relegated to expletives thrown by hateful people, without form, without meaning, and without deeper understanding until I, Zulfikar Moinuddin Ahmed, got involved. I got fascinated by the word around a decade ago, after I became hobo.

But before I go on to my various modifications of English vernacular, let me assure you that my judgment of Bill Gates character is that he is not just a cunt but he is almost a pure model cunt. You would need extraordinary genes to manage to ever reach the purity of cunt that Bill Gates is. I have never actually met anyone who is more properly deserving of the word.

He's just the perfect pure cunt. There is no way to fully explain it. It's a miraculous thing. I am quite pleased with this discovery because I am quite fond of personality psychology and Virtue and Character and so on. I had pondered, like this: "What an intriguing word, *cunt*. I wonder why people are so offended by it." I remember using it sometime against Talia, and having an American white woman get upset with me. Then I apologised to Talia, but kept thinking about it for years before my conflict with Bill Gates.

And this was a great eureka moment. "Wow! Wow! Bill Gates is a total cunt!" That's amazing. Bill Gates, the guy on the cover of Times from who knows when, he's an actual *cunt*. Now that's my discovery.

Yes, it's true, a lot of hateful expletives use the word, but they don't know what they are doing. I do. I see the beauty of the word. It does not mean anything about female genitalia, ok? There are other words even in vernacular like 'pussy' that are better. Cunt is never used in that context, just like 'asshole' is not ever used to refer to the physical orifice in any conversation. Both of these *evolved* in English language and *never* refer to the physical body part. When I was young and first heard the word 'asshole' I instantly understood that it was a moral character judgment, and that is all it was for me and later on I thought about it but no one ever used it for the physical orifice for taking a dump or shitting or whatever. English language had changed so no one ever *means* anything having to do with metabolism when they say 'asshole'. They always mean some bloke with various social deficiencies who is not benevolent in various ways. 'Cunt' is no different. It's just a moral character specification and never having anything to do with female genitals.

Now let me remind you of the type of cat a cunt is. A cunt is someone who is *entitled* and extremely ungrateful and disrespectful. A cunt is someone who visits your place, eats your food, pushes your grandmother over the bridge, fucks your wife, eats everything in your fridge, pisses on your carpet, and thinks that he is entitled to all this without any thoughts about reciprocity and then he will feel that

you wounded his feelings. That is a cunt. Bill Gates is this sort of cunt. He's a pure cunt, and if he had not harmed me egregiously, I'd love to have him put in a glass cage in the museum as an endangered species. The world has never had such a wonderous pure cunt before.

#### 1. EXTREMELY SELF-IMPORTANT EGOISTS ARE USUALLY FAR FROM CUNTS

You see most extremely self-important egoists are far from cunts and have exquisite sensitivity to ensuring that they are never *indebted* to anyone else. That is more common, and I have some of that too. These are people who are full of themselves and have fine sense of reciprocity. They meticulously return any and all favours or gifts and ensure that they have the *right to feel that they are honourable and socially high status*. They can be many things but never cunts. Cunts need a total lack of sensitivity to reciprocity. Extreme egoists ensure that they are always the bigger more magnanimous party everywhere they engage with others. Cunts are different. Cunts actually do not feel any sense that there is a reciprocity at all. They do nothing at all to ensure that any debt is repaid. They just do not have any sense often that anything in the world is not theirs at all, and are incapable of any gratitude. Bill Gates is a psychopath, so he managed to become a pure cunt. Most people full of themselves do not have this luxury. They have to keep their ego large by ensuring that they are not indebted to others and it is their magnanimousness that is larger.

Bill Gates self-promotion projects this sort of thing, but in fact he's just a cunt.
