

**ARCHANGEL OF HEAVEN'S MESSAGE TO THE WORLD OF  
EIGHT BILLION DECEMBER 9 2021**

ZULFIKAR MOINUDDIN AHMED

Heaven approves of World meta that is inclusive. I will make a few points.

First, I see too much harsh treatment of children younger than puberty. You need conditions where they receive a lot more love from both parents. Heaven disapproves of harsh treatment of children younger than puberty.

Second, Romantic Love appeared before Intellect in Human Race and are much more important for fundamental well-being. This world has relatively uneven and primitive understanding of Romantic Love. This has to improve for eight billion.

Third, Ed Diener and Louis Tay has done very good work on psychological needs measured across the world in six dimensions and well-being and life satisfaction. This needs to be taught in all high schools. Also use this as your periodic table for political and social policy please in all nations.

Heaven approves of World Meta. Last time I was on Earth 1180-1300 the idea would have been too difficult and I am impressed with the progress by Human Race in the interim.

Good Luck and may the Light be with you all,  
Zulfikar Moinuddin Ahmed  
Archangel of Heaven
