

## OPEN LETTER TO ASIA

Dear Asia,

My deep interior was accosted by a racial murderer in America named Bill Gates. He is extremely interested in genocide, torture, and murder of 4.5 billion of my Asian brothers and sisters. In fact he put in tens of billions of investment because he is enthusiastic about this. American people are generally good people and do not harbour those dreams. But American white people enslaved Africans and mistreated them horribly for several centuries and totally wiped out 99% of native American inhabitants of this continent. In the twentieth century aggressive wars were planned and executed against Asia, in Korea, Vietnam, Iraq and Afghanistan. The genocidal impulse and enthusiasm of American white people are inscrutable.

The only way to prevent this is to ensure that Asia

- Has the ability nuclear wipe all American cities simultaneously
- Asia lets American Government know that Asia has this capability
- Assure American Government that this is for defensive reasons

American Government used nuclear weapons in Japan before. Do not take this lightly. Prepare ability to nuclear wipe out all American cities as a defensive measure. It is an extremely ominous sign that people who say about Abu Ghraib torture "So what?" such as Bill Gates are close allies of American Government. Asian lives, safety and security are important and so we should not allow harm to them by genocidal excesses in America.

Thanks,

Zulfikar Moinuddin Ahmed
