

WHAT IS SPECIAL ABOUT MY AUTOBIOGRAPHY

ZULFIKAR MOINUDDIN AHMED

Heine insists that faithful
autobiographies are almost
impossible, and that a man is sure
to tell a pack of lies about himself.
In his opinion, Rousseau, for
example, most certainly told a
pack of lies about himself in his
confessions, and even did so
intentionally, out of vanity

Dostoevsky, *Notes From The
Underground*

The historical roots of autobiography are Saint Augustine's *Confessions* and then Jean-Jacques Rousseau's. I am tempted to write something of my autobiography, more than diary entries, now. The impetus is simply that I do sense mortality as a threat, and am in a horrible situation financially where I am living in Allen Texas in the house of my aunt whose staccato denigration and abuse has crossed the threshold of tolerance for me a few years ago and I tend to react with abuse to her. The fault here is that of United States Government who refuse bring to justice Bill Gates the murderer who used his powers illegitimately to cut into my eyes, into my deep interior caused an enormous amount of destruction that is well known by quite a few people with power – UN Security Council knows, the US Government has done considers enough to know, Madam Lagarde knows, Robert Merton and Andrew Morton knows, India's UN Security Council Representative as well as India know as well. So I am in a peculiar situation that the harm of Bill Gates to me are known by many in power but not known in the physical world, by direct responses to emails, is not credible to my aunt and brother. So this is what is going on with my life. I cannot gain access to \$620 million, of which \$120 million from D. E. Shaw & Co. is well-earned for my great discoveries in Medium Frequency Arbitrage strategies that is giving them good business. Bill Gates directly confessed in meta his plan to kill me and take all my work for his own profits. He does not consider it necessary for him to follow US Laws because he is 'big'. And he feels quite comfortable with killing 'little guys' like myself and has proceeded with various power strategies including introducing Hepatitis B and other diseases. He used US War meta on my body long ago. These things are part of my autobiography. These are things that show the enormous difficulty that the world has of just bringing criminals run amok to justice because they consider his commercial empire more valuable. In the specific case of United States of America, that even though the US Declaration Preamble specifically address the purpose of governments in general

and US government in particular to secure Natural Rights of American people, they do not consider the foundations of all law in this country to be worth conforming whenever there is any opportunity to do otherwise and do not consider themselves an illegitimate organisation for this failure. There is much more to my life than this sordid issue. I consider this to be a matter of trivial convergence with norms of Civilisation, but unfortunately myopia sets in when under stress and one has to worry about preserving life under threat and so these sordid issues are part of the autobiography. Given US Government was not defective, I would have expected them to quickly kill the criminal, ensure that my legitimate funds are in my control, I would have moved to San Francisco with my own pad, and continued on with my work without constant denigration and abuse by my aunt. Unfortunately they are responsible for stress and horrors in my life, US Government and their coddling of the worthless miserable vile wretch Bill Gates.

1. MY POLITICAL VIEWS AND IDENTITY

I am a cosmopolitan intellectual, and while I do have some amount of pride that is based on my ethnic history, as I have thousands of years of aristocratic history, I am American and I consider the Human Race to be a Single Race strongly. In fact, I consider the Human Race to be Single as elementary truth that is not understood by the primitive Age. I do not like racial tension in America, but this is a small issue. The future is to understand that there is simply a single human race, not repeatedly get confused about ethnic tension in America between the majority of 60% who are white and 40% non-whites. This tension is trivial. Interesting to me for the future is unity of the entire human race and recognition that we are one people and require some uniform civilisational norms in laws and behaviour.

2. BENEFITS OF MASSACRING AND DESTROYING AND KILLING BILL GATES

Bill Gates is quite well known. I am most interested in whether we can *brand* his destruction as a moral tale that leads to unity of the Single Human Race. That is what is exciting about killing and destroying and wiping out Bill Gates from the land of the living. We could transform the world positively and promoting his death as a joyful moment of transformation and recognition of our unity as a people. He is just perfect in every way for a Blood Sacrifice.

Obviously I have been planning to slaughter the son of a bitch for a while for personal reason, but I am starting to see the light now, how killing him could be one of the best things anyone has done for the human race, a great philanthropic enterprise that shines a light across the entire world and embraces all my beloved people the Human Race is warm and gentle glow.

3. BUT ENOUGH ABOUT BILL GATES

For billions of years before my birth on Earth, on November 19 1973, I had been an Archangel. I behold the Human Race with benevolence and with a desire to do something good for this Angelic Race that is primitive and confused. It is a moment of racial tensions on the planet, and I take a light approach to that problem. I do not wish to dig too deep into difficult problems because what is truth I can discover, but the propagation and literacy of billions of recalcitrant stubborn people with differing convictions is a process of evolution over generations. There is very little I can do about that and do not want to waste my energy on it.

4. GLOBAL LIFE SATISFACTION IDEAS

I am being obstructed by Bill Gates from receiving my \$620 mn and going to San Francisco with a pad of my own and building some new companies, that I have proposed a while ago. This will be more than enough labour for me. Quantitative Positive Psychology will have its beginnings there. In a sense, my autobiography at this point is just a dream for the future and not an achievement of the dream. I am stuck in Allen Texas with all manner of power drama where Madam Christine Lagarde cannot actually deliver \$500 mn to me and David E. Shaw cannot deliver \$120 mn to me because of Bill Gates obstruction. And this is the tension that needs to resolve before I can continue to do the things that will justify an Autobiography where the non-physics and non-Finance ideas of Human Nature and Life Satisfaction take the center stage of my productive life.

5. A YEAR AGO I DISCOVERED BILL GATES IS EVIL

I found today a public email from October 3 2020 where I mention that Bill Gates was a malevolent racist. In the intervening year US Government did nothing much after he used US War meta on my body, cut up my blood meta and Deep Interior, totally eliminated my ethnic meta and various other atrocities and blockaded \$620 million total from reaching me so that I could continue with my work. I was relentless with public emails. My campaign had succeeded in the end as very high level US Government officials finally learned today in considers that indeed Bill Gates is an Evil Sorcerer and had proof in the harm he had done to me. It is a great success and shows that I had made progress on a project that would seem quite impossible, to convince high level US Government official that a tycoon deserves death penalty. This is a test of my endurance in a way, as well as my concern for the well-being of my beloved people the human race. I care about these things now, as having my meta being totally devastated by Bill Gates the issues of what inner resources we have gain new importance. In a sense then the psychological issues of self are natural to attempt to understand here. I am an immortal genius for my accomplishments in theoretical physics and my ideas about Universal Self are still developing slowly. I do have great optimism that I will both reach clearer knowledge and be able to implement the knowledge to all human race. I do need the US Government to kill this malevolent evil man, Bill Gates quite soon, in order to have a chance to recover.

6. DEATH IS THE DRIVING FORCE FOR SELF

Eternal Recurrence is the fundamental deduction from Four-Sphere Theory, and it is a profound constraint on Self; the other is Death. It is difficult to have peace with these two, and whatever else might occur for the development of the Self, these two are the most fundamental driver. These allow us to leave behind us considerations of menial issues, petty issues, and consider our Self in a very vast context. And that in my view is the fundamental substance of the Universal Self.

7. TESTS OF PATIENCE AND HOPE

For a year now Bill Gates had blockaded \$120 mn from D. E. Shaw & Co. and \$500 mn from ECB and Madam Lagarde. He also blocked a Harvard tenure consider. And not a single email was ever responded in all this time. I don't know

much about power meta and so on, but I do know that the uncertainty of whether to even believe that ECB/Madam Lagarde had actually made the risk decision to grant me \$500 mn to do Global Life Satisfaction project is in doubt. The project has a lot of work to do even after I gain access to the money. And I have been frustrated because although Bill Gates has no Finance talent, he has found various ways to use his power to sabotage transfers from ECB to Bank of America; he has found various ways to stop all money coming to me altogether. This is part of his plan to deny nonwhites from getting any significant income. And I have emailed all sorts of people for a year daily trying to gain any response. No one knows how to get me the money, not even the US Government. It is the most frustrating thing in the world, that all of Finance, all of US Government, all of the whole world cannot get past arbitrary illegitimate intervention of Bill Gates and no one can do anything about it.

8. TRUTH VERSUS CHRISTIAN THEOLOGY

Sweet Thames, run softly, till I end
my song. The river bears no empty
bottles, sandwich papers, Silk
handkerchiefs, cardboard boxes,
cigarette ends Or other testimony
of summer nights. The nymphs are
departed. And their friends, the
loitering heirs of city directors;
Departed, have left no addresses.
By the waters of Leman I sat down
and wept . . . Sweet Thames, run
softly till I end my song, Sweet
Thames, run softly, for I speak not
loud or long.

T. S. Eliot, *The Waste Land* 1922

I became an Atheist at six in 1979 in a devotedly Muslim household in Bengal and and soon I will be 50. There is no rebellious impulse in me today at all for that is to me a matter of adolescence. Long gone are the days where Heretics against Christian Dogma would be burned at the stake. But I do bring Truth to my beloved people the Human Race that differs in fundamental conception of the universe from the Biblical mythology. It is in the study of the European Romantics that I learn about these. I had learned today, reading *Natural Supernaturalism* of M. H. Abrams the strong influence of Old and New Testament in almost all the Romantics, including one who I consider the greatest of them, Percy Bysshe Shelley. I learned that early Christians were strongly against eternal recurrence which I am returning to domain of Absolute Truth, along with Fate. Saint Augustine said of *circuitus temporum*, "Far be it from us to believe this. For once Christ died for our sins ... He dieth no more ... And we ourselves after the resurrection shall ever be with the Lord.' And as Fate had seen it fit, I, Zulfikar Moinuddin Ahmed, had been on Earth and am now bringing the truth of eternal recurrence back to the awareness of the Human Race. Your life has occurred infinitely often in the past of the universe, and shall repeat in fine detail in the future. This is the truth. If you

believe me, you had believed me an infinitely many times before, and otherwise you have disbelieved me as well infinitely in past and future.

I have as well eliminated Big Bang and Expansion. The universe has existed for infinite time in the past and there was never any moment of creation of all things. There was never any hot dense state of the universe. These things are colourful elaborate mythologies that are not true. Heed instead Zulf, for Zulf brings you Truth, and Truth shall give your life much more sense in the end.

9. WHY DID I DEDICATE MY SUFFERING TO MY BELOVED PEOPLE THE HUMAN RACE?

I have written to the UN Security Council not long ago (October 6 2021) that I wish to dedicate all my sufferings that was result of the malevolent activity of Bill Gates to my Beloved People the Human Race. The question of why I would do so can be made quite clear. I had realised, once when from dreams and other means I became aware that I have been an Archangel in the Universe for many billions of years past that my life on Earth is for the Human Race. It is not for the Human Race in ways that some others consider service, but my peculiar way, and so it is only fitting and proper that I take the occasion when in conflict with a thoroughly evil and malevolent man such as Bill Gates that I dedicate my sufferings endured by his hatred and destructive and senseless harm to me to my beloved people. Now you might ask how I came to the decision that all human beings are my beloved people. That is a matter that only took place after 2002-3 when my father, Khondkar Miran Ahmed died. He had dedicated his life to service of Bengali people. He did not move to America, as he was highly regarded in Bengal. After he died, I had to go through my own soul-searching and inspired by Eliot's:

After the event He wept. He promised a 'new start.' I made no comment. What should I resent?"

"On Margate Sands. I can connect Nothing with nothing. The broken fingernails of dirty hands. My people humble people who expect Nothing." la la

To Carthage then I came

Burning burning burning burning O Lord Thou pluckest me out O

Lord Thou pluckest

burning

The 'my people' in the poem struck a deep cord and instantly I knew that the Human Race was my beloved people.
