

PROBLEMS OF AMERICAN WHITE PSYCHE WILL BRING DISASTER TO AMERICAN WHITE FUTURE

ZULFIKAR MOINUDDIN AHMED

United States law prohibits violation of individual natural rights from its Constitution, for we believe governments are instituted among men to secure natural rights. But the problem with American White people is that when a white man violates natural rights of a non-white American, let alone a non-white who is not American, American White people are lethargic and dismissive, and unwilling to enforce fundamental law.

This has been part of American history with black slavery and other mistreatment of non-whites. Notice that American laws on paper are not as bad. It's just that the laws are simply not enforced.

This seems habitual in America. The problem is that I had not had any problems with this because I am a Princeton educated man who has had lived in urban cosmopolitan environments and have had European lovers in the past and so was not mistreated by and large in this way.

But I was brutally and savagely mistreated by Bill Gates and I do not appreciate American White people's rather dismissive and lethargic attitudes towards my Life, Liberty, Pursuit of Happiness and my American Dream.

You see, this sort of glib cavalier attitude would work with someone of a different mindset. My mindset is that if American White people do not respect my natural rights, I will ensure that all of their natural rights are blown to bits and all their deep interiors are totally destroyed eventually. That is not what I want to do, but what do you expect exactly? You disrespect Zulf, you pay for it.

Don't tell me I have not warned you. I warned you for a year. Kill Bill Gates immediately.

1. I AM NOT HOSTILE TO AMERICAN WHITE PEOPLE OVERALL

Look, I am not hostile to American Whites but I am 48 now and my patience is not unlimited. Underestimate my ability to move all 4.5 billion against you and destroy all of your Deep Interiors at your peril, White Americans. It's not ideal, but I will demand satisfaction for the harm and insolence against my Deep Interior, and I can make all the stones of Egyptian deserts weep profusely if needed. You have been warned.
