

ZULF WILL EXPLICATE THE ISSUES FOR A SWAPPED NEW AMERICAN GOVERNMENT

ZULFIKAR MOINUDDIN AHMED

We hold these truths to be self-evident that all men are created equal, endowed with their Creator certain Natural Rights, that among them are Life, Liberty and Pursuit of Happiness, that governments are instituted by men to secure these rights.

This is right. So we know what government's are based on, that everyone has Natural Rights that needs to be secured by the government. Now no law of Nature says that democratic republic structure is *guaranteed* to secure everyone's Natural Rights. It could; it could have failures; it could be totally junk. That is the crux of the issue. We know that we need an organisation that is able to secure everyone's Natural Rights. But we have no absolute assurance that all sorts of other features of American government will actually deliver Natural Rights Security for all Americans of hundreds of ethnicities. And that is the crucial issue. How do we know that any other part will guarantee anything that secures everyone's Natural Rights?

We do not know any of that. We don't know that the Legislature with two houses plus separate Judiciary plus the gigantic Executive Branch will *necessarily* produce Natural Rights Security for all Americans.

And it does not right now. So the whole American government has to be reworked and hot-replaced.

I want United Nations to produce the right answer that works, and then I want United Nations to swap out the current American Government with the new one. Don't do a shoddy job. Clean up the entire laws of the nation, junk all the rubbish and *check laws for consistency and empirical validation*. I hate it when legislators pass laws off the cuff without having any clue about what is what and make a gigantic mess and America is even more botched that it already was. I don't want all sorts of ethnic strife here in America. Eliminate all of that immediately. It's just embarrassing. Remove all sorts of draconian criminal laws too. And for God's sake change the age of criminal responsibility to 13 or 14 from 6. You call this a government? My grandmother could have done better in her sleep while writing Bengali poems on the side. Don't embarrass Zulf, please.

1. INCREASE JUDICIARY BUDGET AND DIVIDE UP LEGISLATIVE BURDEN

I want you to consider separating Laws for Natural Rights Security from other more fluff popular governance laws like all manner of junk like government provisions and property etc. Give the fluff to Congress, and disallow them from touching Natural Rights focused laws. Then add a legislature that is specialised in Judiciary that is based on expertise in social sciences and so on draw the boundary so there is more constant monitoring of House and Senate Laws for Consistency.

Date: November 16, 2021.

It's not that I don't trust representatives and Senators. I just think they are too cowboy to secure Natural Rights consistently and they are always more interested in money and global military hegemony than doing anything useful. So reduce Legislature responsibility and expand Judiciary for more expert decisions on Natural Rights.

Then get a lot more control over whether Executive is actually (a) understanding the laws, (b) enforcing the laws, and (b) are not jerking off instead of securing Natural Rights. They tend to jerk off wildly all day and all night the moment they are not monitored.

2. THE DETAILS DO NOT MATTER

We break up laws into tier N and tier C. Tier N takes precedence over tier C. Stands for Natural Rights and Congress. Tier N laws are somewhere *between* Constitution and tier C laws.

You see if you had expert scientific focus on Natural Rights of everyone with authority to pass tier N laws, you can erase all racial problems in Criminal Justice system in the entire country in maybe a year.

You also need oversight of both Congress and this Tier N Legislature of Executive Branch. This will produce an infinitely better United States of America.

I'll gift this as *Zulf's American Government Plan*.

3. BILL GATES POWER EFFORTS WILL KILL ME SOON

My breathing is bad, and I can feel that I will not live long. The body is too hurt by Bill Gates horrible black magic and destruction to my interior and ancestral, family, romantic, sexual, and all other meta. The body is not going to withstand all this. He's the murderer, not coronavirus or whatever was his excuse. Kill the man. He is bad for the country.
