Dear Germany,

Please remove all German War Power used by Bill Gates in my Deep Interior carefully. I want the world to understand that Germany is a Civilised Nation and was not responsible for use of German War Power in my Deep Interior. It was the decision of Bill Gates who is not a Civilised human being at all. Bill Gates has been known to have *rotted the flesh of his victims* by United States Government officials. So if I perish it is not the fault of Germany but of *the United States of America*. Germany has joined the United Nations after the Second World War but obviously that is not the case with United States of America. United States of America has not been responsive in addressing Bill Gates assaulting me from before November 4 2022 even after constant public letters asking them to relentlessly bomb and obliterate this horrific danger to natural rights of non-white people in America week after week. It is the United States Government that should have been blamed for creating this nightmare horror monster, a man who was strongly supported by United States Government throughout his career. The Evil Nazis who were Auschwitz butchers are not even comparable to the horrible malevolent criminality of Bill Gates. I will ask all of Asia to immediately consider United States of America a country supporting much more horrible racial ideology than the Nazi Germans during the Second World War and push to delegitimise the nation in world bodies if I should perish. But even before that I am warning all Asian Nations that United States Government has been aiding, supporting and assisting extremely viled destructive savage beastly horrid racial elements like Bill Gates and not to trust the United States Government till these issues are totally resolved.

Thank you,

Zulfikar Moinuddin Ahmed
