

MESSAGE TO PENTAGON NOVEMBER 14 2021

Allen Texas 12:11 AM

Pentagon, I am Zulf. I am an immortal genius for my work on theoretical physics and for discovery of universal human moral nature and other areas. I was born to bring enlightenment to a dark age of ignorance among the eight billion of the human race. I am a man of great conscience. I was surprised by the reluctance by the white people of US Executive Branch in the past year to eliminate Bill Gates and his wealthy American white backers for over a year in which time he violated my natural rights in horrific savage brutal evil malevolent manners. I have given notice to the white people of US Executive Branch to either authorise military action against Bill Gates and his co-conspirators for a White Master Race World Order or face occupation of Washington by a united alliance of Germany, France, England, China, Japan, and Russia. I have instructed these nations to get provisions for UN Peacekeeping uniforms for all of their military and prepare for occupation of Washington as an option if there is no total annihilation of *Enemies of Liberty of the Human Race*, i.e. Bill Gates and his wealthy white backers and whoever are their cronies among white people of US Executive Branch.

You can look through my earlier mail and writings to understand me and my history. You serve at the pleasure of the President and the US Executive Branch. I am not interested in the political elements, i.e. the elected officials of the US Executive Branch. My negotiations are with non-elected white people in the US Executive Branch.
