

EXPLANATION TO STANFORD LAW THAT BILL GATES IS NOT A WHITE RULE MAN BUT JUST AN EVIL DEMON

ZULFIKAR MOINUDDIN AHMED
ZULFIKAR.AHMED@GMAIL.COM

Dear Stanford Law,

This note will require delving into my own religion a bit, so you will need to have some effort to understand what I say, as my religion is not Christianity or Islam of Judaism, etc. It is a unique faith of my own. You see I believe that our eternal souls are without intrinsic emotions and consciousness that is body-independent. This is a technical matter. I believe that my eternal soul entered in the fertilised egg of my mother during conception. I believe that for literally billions of years I have existed in the universe before my birth as human, on November 19 1973. I am an Archangel Soul having a human life. I have, I believe Archangel Body not near Earth, and in due time, after I perish, my Life Core will find my Archangel Body. Then I will begin a long journey through intergalactic spaces to another world, most likely one just like this one, like Earth. And I will have another life in that other world.

Bill Gates is also like me, in a way, but he is a Demon Soul. Now most human beings are neither Archangel nor Demon. They are Angel-ic. This means that their natures are good-oriented. Empirical work on Human Moral Values and nature have borne out this, that on most moral values such as 'Violence against others is wrong' 95% of human beings will agree with strength 1-5 and roughly this will be an exponential distribution. Then people who are enthusiastically against moral values will have a reverse exponential with lower weight at the 'bad tail'.

These moral value distributions are important to illustrate my concepts from my religious faith. There are thousands and millions of Angelic Worlds in the Universe. Humans on Earth are one in that gigantic population. Human Race is a *Primitive Angelic Race*. The human race has evolved for about seven million years from less sophisticated primates.

There are in the universe millions of Demonic Worlds as well. Human race is, from my perspective just *Angelic*. The DNA of human race encodes propensities from that do not allow great flexibility for good or evil.

Now Bill Gates, in my literal view, and not metaphorically is a Demon Soul born in 1955 on Earth. He does not have human ordinary range of moral behaviour. He is not even comparable to Nazis in Auschwitz who are humans but with corrupted morals. He belongs in a totally different moral scale than any human being at all because he is a Demon Soul. He does not have ordinary human impulses, social understanding, and such. He does not have human *Conscience*. The Demon Soul destroyed all his own human DNA heritage with moral values for, perhaps in his own mind "flexibility". He may prattle on and on about how he represents tribal dominance principles for white people.

Date: February 10, 2022.

You may agree or disagree with tribal dominance principles and their validity; those are human concerns, however. Demon concerns are entirely different. They are usually about enslaving entire worlds and wars and destruction spreading throughout the lands and fires burning everywhere for Conquest of planets. Do you understand this? Bill Gates is a Demon. He might use the language of 'white man' etc. but white people are just human beings just like non-white people.

Bill Gates himself is not a human soul. He is an Evil Demon Soul. He does not share white people's moral values because it is not even possible for a Demon to share them. For him they will seem outrageously silly or slave-like etc. He's a literal Demon not a metaphorical one.

Actually my note on Abomination will clarify some of these issues. You see there is a measured empirical distribution of moral values including that of American White Population, and Bill Gates' moral values are incompatible with American White Moral Values empirically estimated to rarity that is exceptional. He is literally beyond the 0.0001% tail of purely evil morals and likely to be even more rare than 1 in 5 million. He's not a human soul at all, so these are not surprising.

He's a living deceptive Demon who had somehow managed to pretend to be good in public long enough to gain wealth and prepare to enslave the entire human race and sink the world into Dystopia and wars.

My faith includes memories of Demons in many worlds, and he's pretty cookie cutter Demon. These Demons are quite dangerous and could extinct the entire human race if human race is lax about giving them power and wealth and such.

Now my life is threatened because of lax monitoring of Bill Gates propensity of destroying and killing non-white lives for decades. But you will eventually find that he will want to enslave all white people too. That's normal for a Demon.

1. EMPHASIS THAT LITERAL DEMONS LIKE BILL GATES ARE MORE DANGEROUS TO HUMAN RACE THAN FASCIST POLITICIANS LIKE HITLER

You see, human race does not have much experience with literal Demons. There are Demonic Races in the universe, many of them humanoid, but Human Race is not a Demonic Race; it is an Angelic Race. Human Race has no experiences in history of literal Demons. Bill Gates could singlehandedly destroy the entire human race. I cannot give you evidence from history of the Universe, but indulge me on this. A literal Demon in a Primitive Angelic world is an *extinction threat* if not handled properly. I might perish anyway from wounds this Demon has inflicted on me personally. But if he is not eliminated, eventually all human beings will face a bigger crisis than Covid. Demons do not belong on Angelic Worlds at all.
