

ZULF TEACHES THE UNITED NATIONS SOME INTERESTING THINGS

ZULFIKAR MOINUDDIN AHMED

Dear United Nations,

I like your nice civilised sort of international law and peace and human rights sort of things. That's good. I like it. Now let me tell you about a different perspective about the world.

You see, after the Second World War, you were the international law body. But you were always clueless about some things. In America, the wretched KKK goon Harry Truman came to power. They decided that now that England formally decolonised, the White American gangstas would rule the world not by colonialism but by pure military extortion.

Will you please let me finish my story. Hush. Listen and learn. This was the purpose of NSC-68, start containing Soviet Union and rule the world's resources by military extortion. Formal independence of a lot of nations didn't really matter. United States ballooned military expenses. Why did they do it? They did it because United States was beset with a lot of defensive threats, right? You know better than that. They did it so that American people's money would be absconded, and a gigantic military organisation to control all the world's resources would be controlled beyond democratic republic interference.

The US Military, you see, is an *extortion force* and not a defensive enterprise at all. United States Military exists so that the gangstas ruling the world will be able to control *all the world's resources*. And that is the purpose of constant invasions. They keep all possible local political forces from claiming any resource anywhere in the world. The moment they defy the United States gangstas they are removed by force.

Why am I telling you this story? Well I want in the United Nations General Assembly immediately to put forward a resolution for mutual defense of any nation that is invaded by the United States Government. The theory is simple. With an extortion scheme of this sort, a coalition defense will at first increase cost of extortion scheme, and eventually make it impossible. You know that I love my beloved people the human race, don't you. Well, I don't want them extorted any more. I think my beloved human race deserves a bit better.

Alright? Do this resolution for mutual defense right away. It's for your own good. Don't let the bastards grind you down. Give them a harder time. The Earth is beautiful. The resources are good for much more than extortion schemes of KKK goons.

1. WHY WOULD A SIMPLE LARGE DEFENSIVE COALITION SABOTAGE THE EXTORTION SCHEME?

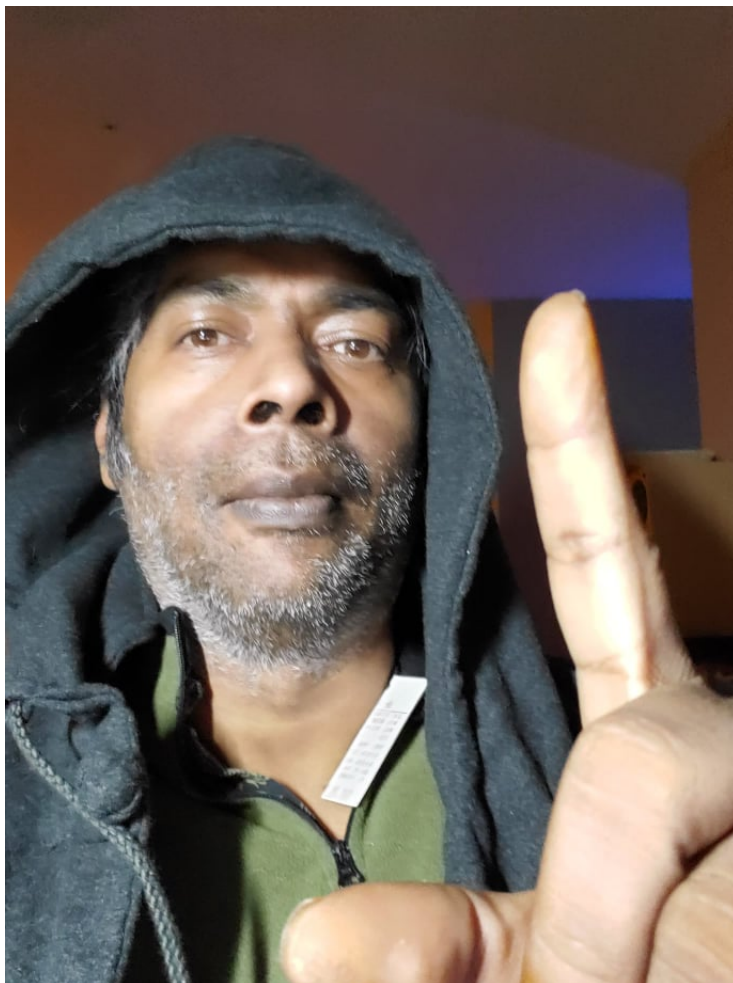

The Gangstas that rule the world, unseen, are American White People with a lot of power. They like Bill Gates and so American Government did not secure my natural rights at all when he decided to destroy my life.

Well, so a defense coalition at the UNGA level would immediately make American invasions for regime changes and resource control quite exorbitantly pricey. It would first of all get Eastern nations with some good military technology and skills like China, Japan, India, and others involved everywhere America invades (breaking Article 34; the Gangstas or KKK Goons who control the world don't care) against American forces. Second American military forces are *schizophrenic*. They think they are fighting for Life, Liberty and pursuit of Happiness of all people and serving America. In fact they are paid servants of some criminal Gangstas that rule the world. They will be demoralised to join any invasion if they know that everyone in the world will join the other side, despite their military tools and power. This is *very good* because this will degrade the extortion scheme in America, which has nothing to do with United States Declaration of Independence or Constitution at all. It has to do with opportunism by some self-serving Gangstas when KKK Goon Harry Truman came to power. United States, from 1950 and NSC-68 has never actually been under the control of the Democratic Republic. It was in the control of Palpatine. Well fine, not Palpatine exactly but people no one know exactly.

Hold on, let's take a look at Palpatine.

Do you think I look like Palpatine?

His hooded cape is a little more dark and he is a bit paler. Anyway, the extortion scheme was a deep corruption of the Multi-Ethnic Classical Liberal Democratic Republic of America. I want a different world order now, so I don't want this extortion scheme any longer.
