

WHAT CAN I SAY UNTO YOU MY BELOVED PEOPLE THE HUMAN RACE?

ZULFIKAR MOINUDDIN AHMED

I say unto you that this existence is an eternal four-dimensional sphere of radius $R = 3075.69$ Mpc that has existed for infinite time in the past; I say unto you that time does not deform at all and is linear; I say unto you that there was never a moment of Creation either 14 billion years ago or 14 trillion and this existence of matter and energy in the universe has eternity in past. I say unto you that Eternal Recurrence is true and the periodicity is vaster than $T_0 = 10^{21}$ years. I say unto you that these are the ways in which Nature operates.

I say unto you that the Human Race is an Angelic and Single Race and all deceptions of multiple races are false.

These I say unto you.
