

## PREDATORY OR PARASITIC VIRAL GENIUS OF BILL GATES: SOME SPECIFIC EXAMPLES

ZULFIKAR MOINUDDIN AHMED

I am interested in biology, but usually not so much in predatory organisms and viral parasitic organisms, but I have been the victim of Bill Gates who cut into my eyes and then avoided Death Penalty of US District Court Justices by using my blood energy that he siphoned using his various power tricks. So Bill Gates has this sort of genius with power, acts that are both predatory and virus-parasite-like activity. Now I am a totally different type of organism, a totally different type of soul, and would not cut into anyone else's eyes at all, and would not be proud of myself if I did. I am a proud virtuous man who demands that these criminal issues do not arise at all and US Government protects my eyes and my Natural Rights since I am American. Of course this has not happened, and I do not practice hardcore predatory and viral parasitic behaviour so I could in fact be quite destroyed in the end.

I have been addressing Harvard and MIT Biology and thought this was an interesting aspect that I had missed. Of course he had misused US War meta against my Body meta which goes against Geneva Conventions on treatment of *war criminals* almost a year ago. So he is not just a criminal, but he has exceeded all bounds of human beings and has degenerated into viral/parasitic norms. Of course he deserves to be killed instantly for the preservation of the United States of America but for whatever reason he has found semi-biological methods to survive turning the world into a power-jungle. He's far more creepy than Hannibal Lechter of *Silence of the Lambs*. Anyway I am a world class genius and do not want to deal with this forever. I would appreciate it if United States could wipe out this totally unhuman soul from existence please.
