

## WHY FBI INTRUSION IN MY PHYSICAL LIFE IS A FATAL ERROR FROM THE GEOPOLITICAL PERSPECTIVE

ZULFIKAR MOINUDDIN AHMED

One of my campaigns *at the United Nations* for over a year has been that United States Government is in grave violation of US Declaration of Independence, and not being proactive in securing my natural rights, which is their Constitutional obligation, their Constitutional *sole purpose*, when Bill Gates assaults me without legitimate cause, that the US Government shows its fundamental *illegitimacy*. This was going on for almost a year.

When the FBI storms my peaceful life with frivolous charges that I am a physical threat to Bill Gates with assassination plot with *fire-arms* when I have been busy in the geopolitical arena for a year, and have never been interested in fire-arms at all, and believe in a *natural rights world order* countering the White Supremacist World Order Bill Gates and others are interested in pushing, the United States Government makes a *fatal error* and will pay the consequences because this is an *inept move*. This is only a good move if I had a record of physical violence, had expertise with sniper rifles, had some sort of concrete evidence that it would be credible to reasonable and rational ordinary intelligent people but there is nothing here that they can establish. Furthermore, this does not address the actual threat I represent, which is *delegitimation of the entire United States Government in international arena* for failure to even understand the US Declaration preamble and having gone off the rails in 1950 with NSC-68 and never recovering.

Obviously I will meekly comply with local officials, nod and smile and return to *The Game* which is geopolitical in nature where I have enormous talents and am ten times better than George F. Kennan and Dean Acheson and can run circles around Zbigniew Brzezinski. Why should I produce hostility with lower level local FBI officials and mental health workers and jeopardize my beautiful global chessboard?

### 1. FBI BRINGS GRAVE THREAT TO MY LIFE AND FABULOUS OPPORTUNITY TOO

FBI had decided to treat me as a low criminal type who sneaks around and plots assassination of Bill Gates, which is their right but it is an error since I am a Princetonian with no record of crime at all. I have never been arrested on any violent event in my life. Their right to make this error and incarcerate me will instantly give me credibility with United Nations diplomatic circle as a man who has first-hand experienced political repression that is unjustified and unwarranted, when Federal Law Enforcement storms my peace for frivolous and absurd charges that I plan to assassinate Bill Gates with sniper rifles and such when they knew that I did not have fire-arms at all since FBI has been tracking me for many years and had interviewed me many times in the past ten years. There is not threat of

*Date:* January 11, 2022.

me ever even using a sniper rifle at all, since my habits are easy to decipher from my efforts at doing Stanford Mathematics Ph.D. problems and campaigning for a Natural Rights World Order for years. What they do is reinforce my view that Bill Gates has allies high in FBI and Government who believe that he can succeed in enslaving non-whites, of ethnic cleansing and repression of non-white Americans, and impose a White Supremacist World Order on the entire world surreptitiously, and the FBI field officers might not be in the know in the local levels but this is what the substantial issue had been all along for me, that Bill Gates' assaults on me were part of a larger political move by him to overthrow natural rights in the nation and the world and seek Monarchic power over the entire West himself.

But when FBI creates an actual event incarcating me while I have more than a year of campaign accusing United States Government of dereliction of duty to securing natural rights of Americans and more interested in global hegemony neglecting the very purpose of their existence, then I gain credibility with international diplomats as a man who has actually suffered the repression with my own body, and that gives me greater influence – provided I survive physically – in the United Nations where I had sought representative power to prosecute the United States Government on behalf of all Asian Nations.

## 2. WHY DO I HOLD FAITH IN UNPOPULAR VIEWS?

You see, I am used to holding unpopular views and proving myself right. I spoke about four-sphere theory and contacted some of the brightest people I knew at MIT, Princeton, Harvard, etc. and they were not sure, but I was sure, and a decade later after even adversity, dispossession, homelessness I was right and I had numbers to prove it. I held views against Friedrich Nietzsche and Immanuel Kant on Universal Human Moral Nature and had empirical evidence to demonstrate that I was right years later. So I have experience in being able to prove that I am right on many extremely unpopular views, and so I am not shaken, and do not care what others hold to be true. If I say that Bill Gates is directly involved in a white supremacist plot for world order, and he is harming me, it will not be possible for anyone to shake my views at all, with psychiatric drugs and various authority of mental health doctors, nurses and incarceration because I am used to being proven right and I know that these things are not matters of argument. I know what is going on with Bill Gates better than they do.

### 3. AH THE SMOKING GUN FOR FBI

This is the evidence that I plan an assassination of Bill Gates according to FBI. When I see this poster I begin laughing hard. It's very funny. How does the *National Federal Law Enforcement* decide this is evidence that I have plans to use sniper rifles? That's funny. He lives 2100 miles from me and I never owned any firearms and this poster is extremely funny to me. It's *free speech* morons. He's actually harming me in real ways. And I will obviously take actual action against me by FBI as evidence for political repression in America against non-whites. Who in the entire world thinks that this poster is a dangerous threat except clinically stupid people without any sense of humour?

### 4. I WANT TO COPYRIGHT THIS FOR COFFEE MUGS

Americans love a little bit edgy messages in coffee mugs. I can make custom coffee mugs with the person's name replacing "Zulf" and then people can have personalised coffee mugs with various whispers to pull the trigger on Bill Gates. I don't think this is a threat to Bill Gates because he has \$131 billion to pay for private security. But it can make me some entrepreneurial money. It's a great idea. It will sell like hot potatoes. This might be quite good let me take a look at coffee mug printing costs. I can get them done for \$9 from here [1]. But there ought to be a better mass-discount and sell them at Amazon. I need some record of my FBI visit. That was on Friday morning Jan 7 2022, and this is actually proof that this sort of mug would sell. People like to feel like gangsters without doing a lot of actual deadly gangstering which is why Francis Ford Coppola's *Godfather* did so well and also *The Sopranos*. This is tremendously good idea. I am just astounded that Federal Law Enforcement would waste their efforts on it but it is *political repression* so I kill two birds with one stone here.

### 5. VARIOUS RATIONAL POSSIBILITIES FOR FBI ACTION

(a) FBI could just be a Gestapo-like organisation just interested in suppressing vulnerable Americans and constraining their natural rights – here freedom of speech not inciting violence but totally hilarious humour – and criminalising good Ivy League educated non-white Americans with a clean record of any crimes pursuing

their American Dream. The historical record is carefully recorded by scholars. Against black Americans, Native Americans, Asians, and other non-whites the brutal treatment included massacres and genocides.

(b) FBI could have acted to serve political interests of a White Supremacist World Order and deny me my success in tenure at Harvard or Stanford as Bill Gates I know is willing to put some billions against Four-Sphere Theory and has revealed his intention to *kill me* using esoteric powers. Field officers might be kept shielded from the corrupt officials higher up in FBI who are White Supremacy Supporters and they could be instruments of a brutal murderous and destructive agenda against non-white Americans.

(c) FBI could just be clinically incompetent, stupid, and without any rational sense and take unrealistic outrageous and absurd ideas of a man without any fire-arms and no record of physical violence and believe them to be threats to Bill Gates who lives 2100 miles away and is protected by private security that \$131 billion in assets can buy.

## 6. WELL-ESTABLISHED SCHOLARSHIP ON POLITICAL REPRESSION IN UNITED STATES

There is a tendency in the United States of downplaying the significance and existence of extensive political repression, much of it *racially motivated*. I accuse the United States Government of both in the case of frivolous intimidation of the United States Federal Law Enforcement visit threatening criminal incarceration on quite innocuous use of freedom of speech protected by the First Amendment. The poster is *not incitement to violence* at all since only my name was mentioned in it. And I have no interest in sullyng my reputation by committing assassinations given my aversion to guns, having no record of even using a gun to kill rabbits in 49 years and having no interest in owning any in the future. The *assumption* that I would actually commit assassinations is *frankly insulting to my honour* as I had felt it humorous. I made clear in my writings that I am aware that in the modern world legitimate rights to take lives has belonged only to nation states, and the legitimate way to kill people is by use of government processes.

The charges are frivolous, but I sense sinister and vastly harmful conspiracy by enemies of Natural Rights like Bill Gates and his backers against the American people and the human race, and *that* is much more serious.

Robert Justin Goldstein's *Political Repression in Modern America 1870-1976*, published in 1978 is a strong work that documents just some of the ways in which United States Government has a long history of political repression and the visit by FBI to my aunt's house on Friday January 7 2022 marks an egregious example of this tradition. The charges are frivolous but the destructive consequences to my life, to my natural rights, and to the fate of my sick mother who is distraught from suicide of my sister in 2017 and is bedridden are serious if her eldest son is dragged away to mental health incarceration on January 12 2022 Wednesday. I did sign the consent feeling coercive pressure under threat of prison time from which exit would be more expensive for me.

I appeal to Yale and Stanford and Harvard Law Faculty to intervene on my behalf and produce necessary preparation for a wider lawsuit for Natural Rights security and its failures by the United States Government.

## 7. FBI WHO DO YOU THINK ZULF IS EXACTLY?

I am a world class genius. If I were the Jason Bourne, and actually intended to snipe Bill Gates and assassinate him, that would be a different life altogether. I would not make a funny poster with home-made bull's eye on his forehead with all sorts of messages to ask myself to whack the fuck. I am not Jason Bourne. I am Zulfikar Moinuddin Ahmed. I won third place in national Westinghouse Science Talent search, was Valedictorian of John Adams High School, and attended Princeton graduating magna cum laude in 1995 with a prize for most original (publication-ready) thesis on several complex variables. I worked at Lehman Brothers as a quant under Andrew Morton and had Kaushik Amin as senior colleague. I was Vice President at Gresham Investments in 2006-7 in Gramercy Park New York. I worked as Scientist II at Biospect in proteomics. I have huge amount of work on a fundamental physics – against which Bill Gates is willing to put several billion to deny me credit. Who do you think I am exactly? I am not good at sniping and military work. If that is what I wanted to do with my life, I would have gone into military training, joined Navy Seals etc. Instead, I was medically excused from physical education because I was shot by a pellet in 1986 and had delicate health. I am just amazed at the judgment of our national law enforcement. I am definitely considering it a grave, intentional and deliberate to harm my natural rights and American Dream by the United States *Federal* Government the moment I walk out the door with mental health officials tomorrow and mark this as a significant event in my life.

## 8. YOU HAVE STRENGTHENED EVIDENCE THAT THE UNITED STATES GOVERNMENT IS ILLEGITIMATE

United States Government is beholden by fundamental charter to secure Natural Rights of all Americans including myself. Instead, FBI visit gives *concrete evidence* to me that the United States Government is more interested in suppressing natural rights and harming Life, Liberty, and pursuit of Happiness of Americans like myself. Obviously this evidence I will take very very seriously and pursue the Abolition of the United States Government for a legitimate government capable of serving 320 million American people better. Our natural rights require security, and the United States Government does not show any interest in fulfilling this fundamental need. US Declaration Preamble contains provisions for Abolition proceedings.
