

BILL GATES IS A TERRORIST WITHOUT ANY DOUBT AND WITH EXPLICIT CERTAIN ACTIONS TO PROVE IT

ZULFIKAR MOINUDDIN AHMED

I will establish in this note with absolute certainty and a lot of personal experience that Bill Gates is a terrorist. I will do this in several different ways.

Let me first remind you of what a terrorist is. A terrorist is not whoever you dislike. A terrorist is a precise thing. There are two elements to what allows us to deem someone a terrorist. Both have to be fulfilled. One part of it is that you have to have some sort of political ideological aim. The other part is that you have to use violence to fulfill that political ideological aim.

Before getting to Bill Gates, let me illustrate the concept with some artificial examples. Suppose Javier Gonzales is a bespectacled gentleman who is quite educated and has a strong conviction that all bakers of the world are really the root of all evil in the world. He believes that the world would be a Paradise if these infernal bakers were eliminated from Earth. His ideology might have to do with not liking the sort of bread that his mom used to bake or it could be because he believed in Briestianity where originally man was in heavenly innocent world and Eve ate a bread given by the primordial evil baker and that led to the fallen state of Man and so bakers are the source of all evil.

Now suppose Javier Gonzales, who is a kind person usually, and does dole out unbreaded candy to children and only gives breadless food to the homeless in his volunteer work and so on one day decides to finally take out his quite stylish gun with his vest and suspenders and pinstriped suits, puts on his hat and just goes around town shooting at bakers leaving the entire town of Arthursberg, some town somewhere of population 3 million, in a mess.

Here Javier Gonzales is a *terrorist*. Note that you probably would not think that he is a terrorist at all. He is wearing dressing that would put him in the same respectability as gentlemen doctors and lawyers. He might be a minority Briestian in an otherwise Christian town, and there is only a minor doctrinal difference where the Christians believed that Satan gave Eve an apple from the tree of knowledge rather than a Baker who gave her a bread. But nevertheless, he was a terrorist because he converted his political or religious ideology into murder and violence.

Now Bill Gates has a political ideology where he believes that white people are superior to all other people and other people ought to be harmed and killed and enslaved and white people ought to be rulers and masters and cause misery and destruction to other people.

He used US War meta against my Body meta without provocation in order to fulfill his political white supremacist mumbo jumbo even before January 23 2021.

We can safely conclude that he fulfills both parts of requirement for being deemed a terrorist and *is indeed* a terrorist.
