EXPLAINS TO STANFORD UNIVERSITY AND HARVARD
UNIVERSITY WHY YOU ARE DOING THE WRONG THING**

Stanford University and Harvard University,

United Nations Human Rights Council will tell you that *Bill Gates damaged my Blood Meta and invaded my Deep Interior with Massive US War Power and US Industrial Power*. This means that your academic considers cannot do anything to undo this damage. I am a *victim of War Crimes and Crimes Against Humanity*. You do not have any capability to undo this harm. That is why they are called *War Crimes and Crimes Against Humanity* for which people are executed. Otherwise you could routinely undo harm done by War Criminals and Criminals Against Humanity.

I would like you to do reasonable things like use *email* and send me *ordinary money* rather than pretend to be helping but not doing a *goddam single useful thing for six months* while feeling like you are doing your best.

You should use ordinary email and ordinary fund transfers to my bank instead of pretending that more of your considers will miraculously undo damage from extreme War Crimes in my Deep Interior.

I don't understand why people think they know better than everyone else and manage not to do anything useful at all for six months and then they feel that they did their best. You did not do your best. That's why I don't have a tenure offer or any money from you. Okay?

Thanks,

Zulfikar Moinuddin Ahmed USCIS# 046-077-179
