

THE AUGUST 2 2021 LETTER TO JOE BIDEN IN CONTEXT

Around six or seven months ago I encountered Bill Gates in meta. He did not immediately reveal to me his racial supremacy plans that were his lifelong dream, to have a defacto white power rule of the planet. He considers the world to be governed by tribal power; he considers white tribe to be the dominant tribe; he knows nothing about Natural Rights theory or John Locke or Thomas Jefferson's classical liberal philosophy of politics, the tradition that I am more familiar with and that I consider legitimate in America. He has ideas that I consider absurd such as 'white right' to harm nonwhites and he had used this 'white right' to justify cutting into my eyes all the way to me deep interior. If I had to guess, I would say of people who have any intelligence at all in America, no more than 1-2% of Americans could agree with Bill Gates at all. I know that John Roberts the Supreme Court Chief, and Steven Colbert and many others know quite well that Bill Gates' 'white right' to harm non-whites is a decision of his own and there is no such right in White Law. Regardless, Bill Gates clearly had malicious and harmful intent towards me already a year ago. I simply did not know this. I only came across him in meta. I don't know the man from a can of tomato soup frankly and he is so vile, disgusting, low, and evil, that I cannot stand his existence on Earth now. I had assumed then that the self-promotion documentaries and other propaganda he propagates were true and that he was a billionaire philanthropist. My intuitive senses were accurate, and I understood in some weeks that he was a total cunt in a way that no human being has ever been. He had been at war with nonwhites in secret for most of his life. Instead of compensating me my \$120 million for Medium Frequency Alpha he began cutting into my eyes and harming my interior. He put me in pain meta, introduced all manner of torture devices. For a long time he had taken advantage of Noia Efrat etc to reach my blood meta. Months later, the UN Human Rights consider had found that he had explicitly told D. E. Shaw & Co. of his intention to murder me with meta powers. He believes that 'big people' have a right to defy US Laws and murder people. Now this sort of belief is so far away from Natural Rights and Enlightenment philosophy of American Government that I am just astounded that American Government had not wiped him out in the 1970s already. But my intuition was quite strong for survival and already six or seven months ago when Bill Gates put me in "Pain" meta even though I am an independent entrepreneur and not one of his employees at all, I had fallen back to my Natural Rights. I was quite aware that US Declaration made explicit that it is the *purpose of our government* and indeed all 'Government among Men' to secure Natural Rights and I am American with the same.

Bill Gates is not just an illiterate and ignorant hick criminal, but he is a pathological liar and had repeatedly told all sorts of people a large number of lies about me. He had told people that I was not American and my papers were forged for example, while my Permanent Residency is renewed until 2031 by the United States Citizenship and Immigration Services and I had arrived to US in 1987 and was the

valedictorian of John Adams High School in New York in 1991. This is no 'little lie'. I found out that he does not even understand what truth is because he believes that people with power have special abilities to turn whatever they fabricate into reality so there is no lying for them.

He is by far the most disgusting, bad, awful, horrible, character I have ever encountered, and quite possible the most disgusting low awful human being that has ever existed on Earth. All the self-promotion of Bill Gates are false; he does not deserve to live at all on Earth. The Human Race will be much better off if he is killed.

1. JOE BIDEN LETTER OF AUGUST 2 2021

OPEN LETTER TO JOE BIDEN

Bill Gates found a way to use his powers to do 'experiments' with me every night. My inner meta or whatever is so bad that the bleeding he makes into faces. This malevolent evil cunt ought to have been aborted before birth, this "Bill Gates". My health has degenerated substantially from sleep deprivation. Your idea is that he needs physical abuse every day. You realise, of course, that I am American by US Law consensus, and I am not impressed by your government, whose purpose had been to secure Natural Rights. Fix this, Joe Biden. I will be seeking Abolition of United States Government for every goddam person in the world knowing about these things and Bill Gates still continuing.

Thanks, ZULFIKAR MOINUDDIN AHMED

2. ZULF'S RELIANCE ON NATURAL RIGHTS AGAINST BILL GATES

The key to my approach to dealing with Bill Gates is to keep focus on US Declaration statement that United States Government's *purpose* is securing Natural Rights. Otherwise I cannot *force* the United States Government to actually take action to eliminate this horrible abomination from Earth. The US Government of course is incompetent and totally worthless in actually doing anything serious, so you have to keep threatening to *Abolish* it nonstop to get them to take action against Bill Gates.
