

WESTERN WHITE MEN ARE THE MOST LASCIVIOUS ON EARTH

This is a very clear observation that is quite obvious from data but is not appreciate. The rape statistics of Western White men are the highest in the world by a wide margin. Since lasciviousness is correlated with rape rates, we can conclude that statistically, Western White Men are the most lascivious on Earth.

Here are continent-level average rates from UN Data over the period 2003-2017.

	Region	Measure.Values
1	Africa	17.04
2	Americas	65.86
3	Asia	15.55
4	Europe	35.09
5	Oceania	76.58

This summary of world rapes tells you clearly that Europe, Americas, and Oceania have much higher rape rates than Asia and Africa. These are rape incidents per 100,000 population. These are relatively small numbers per population but it is absolutely clear that it is the Western White Man who is the most lascivious in the world.

I am annoyed about this because for self-serving reason, Western White Man accuses Eastern men of being lascivious. This is not just wrong, but positively ludicrous and obviously produces extreme resentment and anger among Eastern men.
