

STRUCTURE OF JUSTIFICATION TO DO EVIL IN BILL GATES

I have been harmed in such horrible abominable and evil ways by Bill Gates that I thought I ought to jot down some thoughts about the justification structure of Bill Gates as an example of the mind of a primitive type without much rational abilities. Bill Gates has some simple beliefs about the nature of white man and impulse to do evil to nonwhite man. In particular he seems to believe that it is the *duty* of white man to do evil harm to nonwhite man. Now I have been educated at Princeton and am American. I am a Permanent Resident and this is my country. Bill Gates has done enormous amount of harm to me by power and he seems to be immune to being arrested and tried for his crimes by United States Government.

Bill Gates seems to have actually produced an entire mythology of a "White Race" which has 'right' to do evil harm to nonwhites. I have never actually heard of this cockamamie theory before but since he did cut up my eyes and refused to leave my meta and constantly repeats racial slurs day and night, I am interested in this degenerate special case of a savage primitive mind and how it justifies all manner of evils to others. Surely anthropologists will update their oeuvre and consider the foraging societies as quite a bit less primitive and savage than this "Bill Gates" in the future. No, no, you don't have to give me a prize for this great discovery.

1. BILL GATES' CONVICTION THAT HE AND WHITE MEN EXIST TO PRODUCE MISERY AND SUFFERING FOR NONWHITES

Bill Gates has a most fascinating deep enduring conviction, I have learned that the purpose of his own existence and of all white men is to cause misery and harm to nonwhite people. This is quite extraordinary as a conviction because such a conviction has never been recorded in history of human civilisation at all. I am 48 years old and besides creepy tales of degenerate murderers and other sorts of people in gruesome fictional tales I have never come across this sort of conviction from any prominent or senior businessmen in any part of the world.

2. MORALLY BILL GATES IS MORE DEGENERATE THAN ANY CARTOON SUPERVILLAIN

Cartoon and movie supervillains all have their stories. They are evil, but consider Dr. No of James Bond or Penguin in Batman, or even Mumm-Ra in Thundercats. Bill Gates' story is far more degenerate and absurd than that. He has been fortunate enough to have succeeded in selling some shoddy software and acquire \$130.5 billion. He has mansions and yachts. And yet, instead of being magnanimous and generous to less fortunate people, he believes his purpose in life is to harm, repress, cause misery and evil to less fortunate people using all means at his disposal. He not only considers it his own purpose but he suggests that all white people have such a purpose. And simultaneously he considers white people superior to others because he says white people have more power.

It is difficult to find any fantastic supervillain in movies and comics who is more degenerate morally.
