

ZULF PROPOSES ONE MAN EUGENICS PROGRAM TO KILL BILL GATES

ZULFIKAR MOINUDDIN AHMED

As you know, I am a strong proponent of universal natural rights security for eight billion of my beloved people. But today I will propose a *One Man Eugenics Program*. I hate eugenics programs in general and it will totally ruin my universal natural rights security agenda. But Bill Gates is already a racial murderer being coddled by the United States. So today I will ask the United States Government to produce a *One Man Eugenics Program*.

Bill Gates is so stupid that he actually believes jointly two propositions. The first proposition is that 'whites are superior' and the second is that 'United States won the Vietnam War'. No, no, don't laugh. The two propositions actually do belong together. Anyway, years ago when I was a student at Princeton I volunteered to tutor kids in poverty-stricken Trenton New Jersey. And they were all quite bright. They never even imagined to believe that United States won the Vietnam War.

I propose therefore, to implement the *One Man Euthanasia Program* and put Bill Gates to sleep. He is so stupid that he lowers the average intelligence of the entire human race. He is extremely malevolent and evil, but he's not bright at all. He is very very very stupid.
