

HOW BAD CAN A DEMON BE ANYWAY?

ZULFIKAR MOINUDDIN AHMED

Human Race, you want Zulf to tell you how bad a Demon is. Good. You don't know any Demons at all. This planet is populated by an Angelic Race, the Human Race with minor tussles like Holocaust. It's pretty bad, Holocaust. It's pretty hurtful, quite bad. But if you allow a Demon like Bill Gates gain any control the whole world will be rushing to Auschwitz for some peace and distance from ravages of war and destruction. Then Second World War Camps with cannibalism will seem free and happy and without any troubles in your mind and a haven for lovers holding hand singing about how lovely it is to love. Do you understand? A Demon is worse than a pretty savage Human Being. A Demon is *very bad*. Bill Gates is a Demon.
