Zulf will totally clear up issues of single human race and your ethnic ancestry once and for all.

I want everyone to pay careful attention, as this will totally clear up issues of ethnicity and race because you are probably quite confused. This is a *Primitive Age of Man* so it is not surprising that you might be disoriented and confused because most people on Earth are confused.

Take a look at this graphic carefully.

This is a graph of your ancestral history on Earth. Let me show you my photograph. You see on the map right there the red arrow around India with a "70,000" on it? That's my ancestral migration starting from Southeast Africa. You see the "40,000" on arrows in Europe. If you are *white American* that's your ancestry. I am *aryan*. If you're white you're *not aryan* okay? White people are not *aryan*. Aryans are Indo-Iranian people. The word comes from Sanskrit, which evolved in the East, that red line over India is where Sanskrit developed.

Let me show you my picture.

That's Zulfikar Moinuddin Ahmed. I am *aryan*. If you are a white person, you're not aryan. And no matter whether you are white or yellow or brown we're all cousins from around 100,000 years ago from *Africa*. White people are *not aryan* but are cousins of *aryans* like me from around 100,000 years back.

The human race is a single race. Don't listen to douche bags like Bill Gates because he's a *stupid illiterate hick moron*. He knows nothing at all about human ethnicity. He does not have a *goddam clue* ok? Instead learn from Zulf. The human race is a *single race* and not *five races*. Karl Linneaus, the man who theorised five races, the Swedish taxonomer? You know him? *He was wrong and Zulf is right*. Do you follow me? The *theory of Linnaeus* was *no good*. It was wrong. So do not believe it. Instead trust *Zulf* because Zulf is more knowledgeable about this than Karl Linneaus.

The human race is a single race. Now don't get *confused about this*. There is no *white race*. It's a myth. It does not *exist*.
