

AMERICAN GOVERNMENT WHITES LOOK YOURSELF IN THE MIRROR AND ASK DEEP QUESTIONS

ZULFIKAR MOINUDDIN AHMED

American Government Whites I want you to look into the mirror and look at yourself honestly in the eyes and ask yourselves the questions:

(a) Why am I working in the United States Government? Is this where I need to be? Am I willing to do whatever it takes to secure American People's natural rights?

(b) Is it right that I get paid a lot of American taxpayer money, and I routinely refuse to enforce death penalty laws against those who have violated them?

(c) Is the world better off without me in the American Government if other people who are not me is in my spot and getting paid my salary who do indeed enforce death penalty laws against criminals who violate them?

(d) Do I owe anything to the American People whose hard earned money buys me houses, cars, a dignified life, food on the table, while I simply ignore laws that need to be enforced?

Maybe you are living the wrong life. Maybe you should be a great musician and writer riding in the highway. Maybe you should be in Wall Street making all sorts of decisions about Fixed Income Derivatives.

But if you want to (a) live to see more days and enjoy your retirement, (b) want to not be painted black as ink by Zulf for being corrupt, you better shape up.

1. LET ME TELL YOU ABOUT AMERICAN GOVERNMENT A BIT

You see, American Government is not IBM or Intel. It is not an organisation that is one enterprise competing for some market share and selling some products. It is a *monopoly*. It was a monopoly *by design*. So you don't have the same luxuries as a corporate executive. You cannot quit American government and join British government. So that's the first thing about American Government. Whether you like your salary or not, you are holding precious important spots in a *monopoly*. Your tasks are not to make American Government look good. Your tasks are *specified in US Declaration and US Constitution*. They are your tasks. Your purpose, professionally is to secure natural rights of Americans. That's what this organisation is, American Government. All officials of United States Government, to the extent that they are legitimate officials in the government are serving a monopolistic organisation whose purpose is *not commercial* but to ensure securing of natural rights of 330 million American people. I am one of these 330 million but your job is to secure natural rights of every single American and not just mine, not just a rich white Americans' but also the poor non-white Americans. That's right including those of the destitute.

Date: December 2, 2021.

I don't think you understand your professional duty at all. You can have whatever meetings and memos you want and look busy all day and all night, have whatever awards you have, and at the end of the day, if you are not focused on securing natural rights of all Americans you have totally failed in your career. These positions you hold, they are trusted positions by the American people. We, the American people, do not want to worry about our Life, Liberty, and Pursuit of Happiness. We trust that you will do your job well and ensure that we do not have to worry about it. We are so trusting that we don't shoot the IRS man when he wants to take away 35% of our hard earned money. So we feel *extremely betrayed when to our surprise we find you never wanted to do your job.*

2. AMERICAN PEOPLE SIMPLY CANNOT AFFORD TO HAVE PEOPLE WHO ARE NOT SECURING NATURAL RIGHTS IN GOVERNMENT

American People work harder than a lot of others in the world. We expect that we don't have to worry that if our natural rights are threatened, that the American Government Whites (you are 77% of Senior Officials so the blame will come to you) are doing grand plans for Full Spectrum Dominance of the globe while you cannot do the basics of natural rights security. We don't part with our precious money to fund your efforts if you do not provide this simple basic service that is written in our foundational documents from 1770s. Why would we want to do that? We are not involved in your grand plans for domination of Ecuador or Indonesia or wherever. We are in America following our own dreams. We trust that you know that we give our money without too much trouble because we're *paying you* to do things written in law, in Constitution. American People are rational people. We don't think that we owe you our money to squander on foreign adventures when you are unable to secure our natural rights. Why would we want that? It's better to not pay you any money, let you do whatever you want with your own money, and get some other people in government so they secure our natural rights. Maybe you are so used to taking our money as entitlement that it does not occur to you that all Americans are paying you to do something. And people are unhappy when they are paying and struggling and people in government feel entitled to this money for doing whatever they feel like. You are only given authority to exercise Will of the American people by enforcing laws. What will Europe and Asia think if they find that American government throws all laws to the wind with grand plans for conquest of Hari Pari in the Mountains of Wherever but cannot bring murderers to justice within the country?
