

HOW ZULF BECAME THE WORLD'S CENTRAL FIGURE IN PREVENTION OF WHITE RACIAL WORLD ORDER

ZULFIKAR MOINUDDIN AHMED

It is not a surprise in a way that in the end I would become the World's Central Figure in Preventing a White Racial World Order. But it is surprising if you don't see the world and me in a peculiar and odd sort of way. You see, I am an extremely Western cultivated person. Like literally 19.9 million Asian-Americans, I too am Asian-American. At the same time my particular American experience led to an obsession by Bill Gates to use me as a guinea pig for his White Racial World Order experiments. He is not exactly the leader of the effort. He is more the Auschwitz butcher of the effort.

If I survive, I will try to understand the path that led to my becoming the Central Figure in Prevention of White Racial World Order. Certainly it is not because I was extremely ambitious in the business of world orders. In fact I was quite distant from political power; I joined the International Socialist Organisation in 2002-2005 roughly to protest the Iraq War and was busy with street protests in Mission San Francisco. I was not actually involved in matters of global diplomacy or political orders at all.

For the past decade I have been trying to get my life together far from the cities I am used to in Allen Texas, a sleepy suburb of Dallas. I worked on Finance and was thinking of getting some compensation from a good show for it. I was quite happy when a bit more than a year ago David E. Shaw of D. E. Shaw & Co. was impressed with my work and put on \$6 bn on it. I was owed \$120 mn in the end. It was a good point. My mother was sick and needed money in Bengal. I was ansy for getting married and settling into my final years of life in San Francisco. Then Bill Gates intervened in my life with the most atrocious destructive savage evil manner with meta power, began with US War meta to harm my Body meta and began destroying all sorts of elements of my Deep Interior for no apparent reason. I was expecting compensation for the money he was making at D. E. Shaw & Co. based on my work. He began denigrating my work and had a plot to murder me. Then he lied to senior US Government officials that I had forged papers when my Permanent Residency was issued in 1997 and is now valid until 2031. Of course my brother and aunt are not aware that all this is not delusional because this is power meta work. But UN Security Council was aware since their consider confirmed my accusations. I discovered that Bill Gates was involved in a push for a White Ruled World Order. He thinks he will be the ruler of the world in this way. But he is too stupid and power hungry and so I suspect that he would be killed if a White Ruled World Order succeeded. I was stuck. I had no other plans than just get compensation for my Finance work and move to San Francisco to work on building some institutions for Psychology-Technology Applications for Global Life Satisfaction. I had clearly succeeded since not only D. E. Shaw & Co. but also ECB and Madam Lagarde

together gave me \$620 mn. But Bill Gates was able to prevent even Janet Yellen from transferring the money to me.

Not having any way to get out of this situation, I just pushed for world order plays of my own using UN email system. For a year I can hear Bill Gates in my meta continuously repeat "I am white. Whites are superior. I am white. Whites are superior." I had only known liberal white professionals with a smattering of conservatives from Princeton and my various jobs from 1995-2008. I was not familiar with this behaviour from any white person at all. Then I realised that I have to prevent these malevolent creatures from producing a White Ruled World Order. They are savage beasts, these types. They are not exactly the modern civilized western humanists who I am used to.

I suddenly felt that I was in the same sort of situation that perhaps my grandparents faced in India, or the people during Second World War. They had to deal with irrational politics disturbing their peaceful civilised plans and life without having done anything in particular to invite them. Bill Gates is a monster like a pit bull. He is intellectually inferior and illiterate but he is a fish in the sea of power. I understood that my Beloved People faced a great threat. And I took the best course to react that I could determine.

With a year of extreme destructive attention of Bill Gates eventually I realised that I have more experience with being a victim of one of these White Racial World Order types perhaps than anyone else in the entire world. It's not exactly the sort of spot anyone ought to aspire to. But this was my Fate, and I accepted it. My life would be threatened and there would be no one else really around who could understand what was going on.

1. THE IMPORTANCE OF TOLERANCE IS 69.7% AMONG AMERICANS

Among all Americans, around 69.7% directly believe that tolerance and respect for others is an important child quality. That is in line with Indians. I won't go into detailed comparisons, but Bill Gates' ideas of White Racial World Order is politically infeasible today in America. One of the reasons for my centrality in preventing a White Racial World Order is that although I am the victim of one of the most destructive and evil zealous plotter of White Racial World Order, I am rational and have access to and expertise in examining the measured features of the global population and therefore could see that although Bill Gates has corrupt friends in US Executive Branch, the American People would not be enthusiastic about these plans. There is no demand in American Public for these sorts of efforts and they are therefore highly toxic fringe elements in American Society. I am just astounded that US Executive Branch does not immediately strike down such a grave threat to American People and Global Peace immediately and allow Americans like myself to be harmed for an entire year without any action to secure my Natural Rights at all.
