

**ZULF WANTS THE WORLD'S LARGEST LADY JUSTICE  
STATUE AT UNITED NATIONS**

ZULFIKAR MOINUDDIN AHMED

Dear United Nations,

I want a *monumental* statue of Lady Justice somewhere that is even bigger than Statue of Liberty in New York.

Statue of Liberty is 305 feet. Make a Lady Justice statue that is 1500 feet in height. I want *big* here. She will oversee the just treatment of all people of Earth.

I like the wings in the Raf Grasseti 1988 sculpture, keep the wings but return blindfold and balance with it. I don't like most of the extant statues. Show better care for aesthetics.

---

*Date:* November 26, 2021.

Keep the wings. Do more care with the sword. Use more runic inscriptions in it. And for God's sake get the balance to look good. Don't make it with thick chains; those look awful. This is balance of justice for all Human Race. It should not look like the corner grocer's balance from early Middle Age Europe. Make the lips clear and unemotional.

Raf Grassetti's conception is good but it is too Greek and with actual targets of the sword. Don't do that. The targets of justice should not be depicted in an official United Nations Statue. Remember, she is not human. Don't try to make her European or Asian. Grassetti's Archangel Wings are very good. Take that.
