

PRIVILEGES AND COSTS OF EXCESS DEMANDS OF SACRIFICE FOR AMERICA

ZULFIKAR MOINUDDIN AHMED

I had been planning for standard contract with United States of America. The deal was I follow the laws of the Republic and pay taxes and live my life as a decent American and United States will secure my Natural Rights. I obtained my Permanent Residency in Buenos Aires Argentina in 1997 after all manner of checks and bureaucratic deliberations. I was fine with following Republic laws and paying taxes etc.

But for more than a year now I have been subjected to the most brutal horrific cutting up of eyes, destruction of personally important meta, total disruption of my Natural Rights and health and all things sacred to me by this criminal cunt Bill Gates and United States did nothing much to secure my Natural Rights.

These are demands for sacrifice for the Nation that far exceeds what I was willing to provide in exchange for security of Natural Rights and other services of United States Government.

I will demand the following compensation:

- Immediate Naturalisation with passport delivered to 915 Meadowgate Drive, Allen Texas 75002, to Mr. Zulfikar Moinuddin Ahmed without me lifting a finger and you can get some reference from General Lloyd Austin
- I want \$1 trillion in compensation for my great sacrifices to the Nation and miscarriage of justice by United States Government available at, let's see, Deutsche Bank as soon as possible
- Total cleansing of Racial Supremacists who are not in agreement on securing of Natural Rights of all people of all ethnicities in America in US Government
- Continuous attention of top medics in United States Government to ensure that Bill Gates does not kill me in my sleep with esoteric and evil meta powers

These are compensation for my sacrifices far beyond my natural obligations to the United States. It is not fair for the Republic to demand great sacrifices to me in areas out of my expertise without warning and without any support when I repeatedly seek that United States honour its obligations written into the US Declaration of securing my Natural Rights and only give minor lip service against Bill Gates who has been on a Racial Supremacist War secretly all his life. I want some correspondence from the US Government on terms of my sacrifices. I do have natural Romantic Idealistic leanings but I do not sacrifice greatly for Nation states without good compensation.
