

DON'T FLATTER YOURSELF ISRAEL UNITED STATES WILL FLATTEN YOU IN FIVE DAY WAR

ZULFIKAR MOINUDDIN AHMED

Look, Israel, I may not be particularly American War oriented, but I am American, and I assure you that United States of America can totally flatten all of Israel in the world's first Five Day War ok? Do not flatter yourself. America is very good against your type of country. You won't survive more than five days. We are *bad* against Afghanistan type of countries where people have Allah in their hearts and go around with Kalashnikovs and don't really give a damn how rubbular is the landscape. You Israelis are modern types. The moment your high tech gizmological society has all the internet and power grid taken out you'll be more helpless than little babies. Besides, you can't even win against Hamas. What makes you so cocky? Huh?

You did do Twin Towers, so you're cocky think you're on top of America huh? Hahahahah Well those things happen. Don't get cockiness get you wiped out kiddos. United States of America, my country is far more Genocidal than you.

1. THAT'S PRETTY FUNNY ISRAEL

Are you serious? If United States declares war against Israel 50% of Israelis will take a plane to Germany, France, Russia, and England and stay with relatives in a day. The rest of those who stay behind will be in American Occupation in Five Days. Don't even start with me. You don't have the population to support a war with United States and survive. The chutzpah is outrageously high over in Israel isn't it?
