

WHITE BOSSES AT UNITED STATES GOVERNMENT GIVES THE DUMBEST ORDERS ON EARTH

ZULFIKAR MOINUDDIN AHMED

Look, dear readers, my precious Life is at stake. This Demon Bill Gates spent a year and a half of nonstop day and night considers with all manner of European black magic, destroying everything in my interior, putting his dingus and sexual matter in my sexual meta, horrible abominable disgusting things, filthy and vile, putting in toilets and urinals in all places.

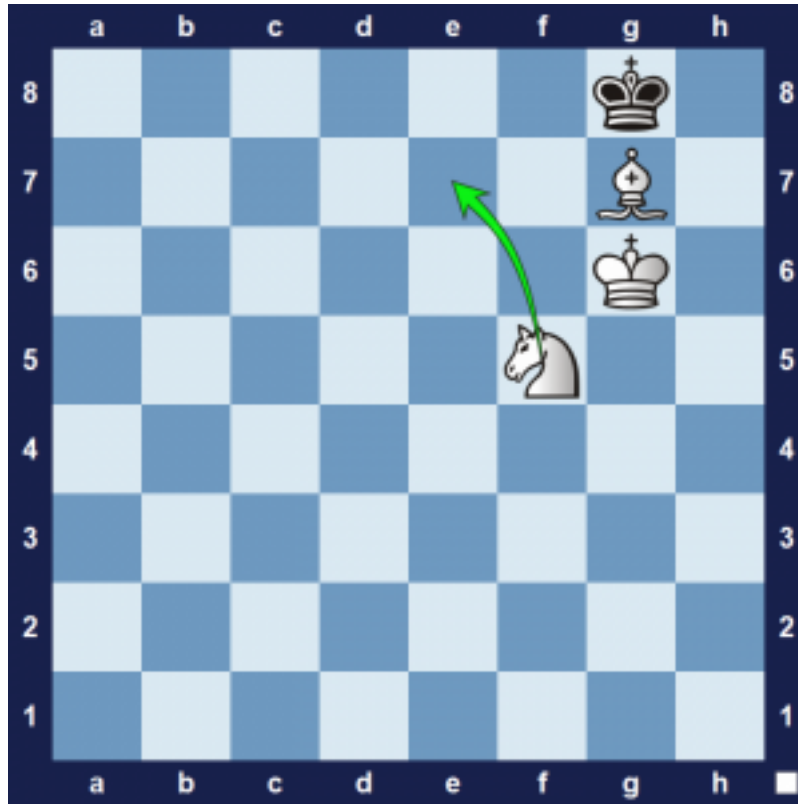

What's the White Boss Order? To separate Bill Gates from Zulf. That's like ordering a lot of handwaving to transmute lead into gold.

What sort of moronic White People become Bosses in United States Government these days.

What kind of order is that for a racial murderer obsessively destroying all aspects of my Life and Career obsessively for a year and a half? Can someone please replace these morons and get some competent people in the goddam United States Government?

1. THE WHITE BOSS CHECKMATE

Let's admire this board over here.

As you can see the *White Knight* is moving to position. That's me. And the black is American Global Hegemonic Empire. This is known as the *Infinite Cascade of White Bosses Who Cannot Kill Racial Murderer Bill Gates Checkmate*. Fine, I am naming it on the spot. This is not actually in the textbooks.

But notice the position of the king. The problem, that will not be seen by the 1.4 million whites in American Government, is that the American Global Hegemonic Empire needed a lot more non-white bosses than they have if they want to play with Zulf. Bill Gates will be constantly thought to be *more valuable* than Zulf by all these idiots, and that's a checkmate.

2. WONDERFUL GAME: CHESS

The moment I post this to United Nations, Winnie The Pooh will be playing a small violin for the Twilight of the Global Hegemonic Empire run from Washington. Their vulnerability of racial bias, so strong that they cannot eliminate a habitual racial murderer like Bill Gates is so outrageous to Europeans and Asians that this is really the end. Beautiful ending here. And it's deep. American White People were always much more provincial than English Colonialists, despite their various affects and pretensions. This provinciality is extremely noticeable to both Europeans and Asians but not, of course, to American White People.

Of course you cannot have racial bias in the Capital of a Global Hegemonic Empire. Extra credit problem: Why?

3. ZULF CANNOT BELIEVE THE NERVE OF THESE BOZOS

Look White People in American Government, around the world white people have been treated pretty well. Usually people don't have pogroms and lynch white people. People don't try to genocide white people. People don't try to have campaigns about how white people are inferior. What the fuck is the problem of white people exactly? You think not killing a non-white person is a great gift to mankind? Are you out of your minds? What is the major problem with you?

Ah, you *believe* that white people would be enslaved and lynched and mistreated if you did not have military control of the world or some such thing? No, people don't usually do those things even if you don't have military control of the world. You can do some research and find that people are generally quite nice even if you don't have all manner of aircraft carriers around their countries. Who taught you this nonsense?

4. ZULF REVIEWS HISTORY OF EVENTS

The Fall of the American Global Hegemonic Empire has a smooth trajectory. United States had plans to control the World Order from before the war, and entered the war against Germany and Axis Powers. We lost half a million and had strong military buildup which was a good way to get out of Depression anyway. After the war, we had the KKK goon Harry Truman in charge and he immediately decided to expand the military and turn against Soviet Union. We were the only intact country with a third of the world's gold. So that's a high point of America's Global Hegemonic Empire. Then there was Asian Manifest Destiny underneath Cold War. By 1989 the Soviet Union collapsed with great jubilation. And we, United States of America were the great power ruling the world. And so what went wrong? What produced this end to the American Global Hegemonic Empire? The right answer is that United States of America irritated Zulf. But let's look at some of the other sorts of narrative that are not as correct, but still illuminating.

Neoconservatives in Washington were heavily invested in regime changes in the Middle East for "Soviet-influenced states" and classified plans for seven country regime change tour from Africa and Asia. Then Israel's Mossad faked some hijackings etc. and choreographed September 11 2001. And the idea was a firmer control of parts of Asia. This is what went wrong. This was a poor play, and Manifest Destiny Genocidal impulses of White Americans were stoked this time against Asians.

This is all well and good, but they forgot too easily that *Zulf* is not white. This oversight was the doom of the American Global Hegemonic Empire.

See, that's me, Zulf. I am not white.

Now you may say well there are so many people who are not white and they are routinely killed. In fact America killed $N(\mu = 11200, \sigma = 223)$ non-whites in Asia using drones, without any trials or any habeas corpus, why should *Zulf* matter? That's a great question. Why should Zulf matter indeed. Well I am writing this note, so I will leave that to you as a homework problem.

5. I WILL EXPLAIN TO VIVEK MURTHY

So Dr. Murthy, we respect your great service that benefits the American people, 330 million, of whom 40 percent are non-white, as you know. Your talents and expertise as a physician are renowned, and I have the utmost respect for the important work that you do. However, you are not as finely trained with the subtle instincts and the knowledge necessary in a different arena, geopolitics. I sold newspapers in the streets of San Francisco where International Socialist Organisation had the first expose of the Abu Ghraib torture with large photographs. I sold them for \$1 and I was training in leadership in politics. I had a job in a pharmaceutical biotech, Biospect/Predicant working on analysis of separations mass spectrometry of blood and urine and other biological fluids, in charge of signal processing of large 2D mass spectra. The company engineers were developing new time-of-flight mass spectrometers as well. John Stults was a VP of Analytical Chemistry there, not sure if you know him. This was 2003-2005 and I was incensed by the Falluja and other offensives and protested against the war.

But my vision for geopolitics is far grander, you see, than a little war here or there. I have a vision for my own World Order. I would like a Natural Rights World

Order, and American Global Hegemonic Empire, quite nice in some ways, is getting in my way now. Alas, as much as I love American Global Hegemonic Empire, I will not allow such things to get in my way. I am sure you understand. Around 80% of my beloved people, the Angelic People, for who I have great love, want natural rights security. Do you think I am so heartless as to deny their call, their souls cry for natural rights world order. How could I deny them? They deserve this much from Zulf. I am not a heartless man, Dr. Murthy. I will give them this much at least.

6. A COUPLE OF UNIQUE EVENTS IN MY LIFE

With personal acquaintances and friends, I always tell them a few anecdotes which are parts of my life, actual events, not fabrications. The story above is one, that I did get involved in Socialist activities in San Francisco in 2003-2005 and sold newspapers with exclusives on Abu Ghraib torture. Another is that when I was 11 in Bengal, I was shot accidentally by a classmate and the pellet is still in my liver, and deflected off a rib bone and missed my heart and I lived, miraculously. These are events that distinguish me from 8 billion other people, and so I don't give a damn who thinks they are good or bad. I love every part of myself and my life, and cherish these things that announce to the universe *Zulf Lives!*. They are natural events. They were not done to impress anyone, even myself. My Conscience was tugged too hard for me to enjoy yuppie social life in San Francisco alone. There are other adventures, some worth talking about. You see you live once, and in the end all things you do with your heart, all extraordinary things that happen in your life are precious. I believe that all events of my life are carefully recorded by Archangels, not by means I understand.
