

ZULF RECOGNISES EXTRAORDINARY LEADERSHIP TALENT OF JOHN ROBERTS

ZULFIKAR MOINUDDIN AHMED

Within moments of assessing the possible threat to functioning of the United States Government for possible cultural prejudices of white people in American Government Executive, John Roberts did not hesitate a moment before exercising his legitimate authority as leader of Judicial Branch and giving notice of a few days to all non-elected white people serving in US Executive Branch that unless they enforce American criminal laws against Bill Gates, they will be fired from their jobs at all levels of seniority.

Zulf recognises here extraordinary genius in leadership. I will have to admit that it's better than even I could have done and my judgment is extraordinary good in decisions when issues are significant.

This is a good decision for many reasons. First, because he recognised that this was a serious problem for the future and United States had an existential crisis. Second, he did not want to sabotage the opportunity to serve in unelected positions of American Government Executive Branch for white people in the future. This is remarkably subtle decision because he realised that this is a problem for the specific batch of US Executive non-elected employees and not of being white per se. This is a remarkably beautiful decision. Being terminated from service is indeed better than being executed for accessory to War Crimes of which Bill Gates has been condemned to death by UN Security Council already.

I hope this is a serious decision, and that all US Executive Branch white non-elected officials understand that they will be fired within days if they fail to enforce criminal laws against Bill Gates and his Co-Conspirators.

1. CONGRATULATIONS JOHN ROBERTS

Congratulations John Roberts on remarkable genius national leadership. American People will be grateful.

You have impressed Zulf, which has privileges, Zulf is not actually very easy to impress.

May the Light be with you.
