

## HOW CORRUPT IS UNITED STATES GOVERNMENT ANYWAY

ZULFIKAR MOINUDDIN AHMED

You know, when I was a young teen, I was listening to all sorts of things about how horrible the Soviet Union was. There were stories of how Soviet government was close to all sorts of criminal goons raping the Russian people. And now in 2021, years later, I am *absolutely astounded* that the career murderer, total thoroughly evil barbaric savage charlatan, this *Bill Gates* is actually close to all sorts of US Government officials. It's like the den of thieves when you finally truly grasp how horrible it is when a man who United Nations Security *put to death for War Crimes and Crimes Against Humanity* is actually best friends with all the highest echelon government officials in Washington.

A year of screaming and yelling at the top of my lungs across the world, the United States Government ignores continuous confessions of Bill Gates murders and his plans for White Racial World Order and the United States Government does not do anything when he blockades \$620 million of my earnings that I need. Suddenly all of United States Constitution, security of Natural Rights for Americans, the American Dream, the rule of law, all poofs into thin air, and to think that these guys have without cause gone to the Middle East with huge amount of destruction based on a fake, this September 11 2001, where *no Muslim Arab* had actually done anything at all, to follow through with classified plans, all this just makes me sick. Someone better clean up the United States Government soon because Zulf is getting majorly pissed off.
