

ZULF BEGINS MY REASONING FOR CONDEMNING THE US EXECUTIVE BRANCH

ZULFIKAR MOINUDDIN AHMED

I am directly aware of Bill Gates' direct actions of using US War Power and US Heavy Industrial Meta in my Deep Interior about a year ago. I am having quite bit of difficulty breathing for some months. The exact date I do not remember. It might have been eight months ago rather than a year when Bill Gates invaded destructively my Deep Interior with War Power and Heavy Industrial Power.

Today, on November 13 2021, it is quite clear what the plan had been. It had been to invade my Deep Interior and destroy my Life and Health, destroy my ordinary ethnic meta, personal meta, romantic, family, and sexual meta, ancestral meta, which Bill Gates did directly.

I had only learned within the past week or so that his direct backers for this plan were white wealthy men who believed in a vision of White Master Race, where they would live in luxury and rule the world as Monarchs and enslave all non-whites in the world.

More precisely, the plan was to extend this and invade the Deep Interior of all Asians and Africans and South Americans by illicit means, by power methods.

The UN Security Council had judged and condemned Bill Gates to death for War Crimes and Crimes Against Humanity.

Now on one hand I am not directly aware if the White People of US Executive Plans were all involved in this plot. It is quite possible that only some were involved. It is also possible that all of them were involved. What is clear is that I have a long record in email and other ways demanding that Bill Gates be bombed relentlessly and obliterated physically by lethal military force, for at least six months. Six months later, he had continued with his plans without any resistance.

The US Executive Branch White People, even if they are the mastermind behind this evil and genocidal plot to commit mass scale destruction of lives of four and a half billion Asians, and a billion Africans and some vast populations in South America, were certainly complicit in the plot indirectly at least. I had repeated that I am American, that my USCIS# 046-077-179 and I have been following my legitimate American Dream but there was not much enthusiasm that I could detect from US Executive to bring Bill Gates and his Co-Conspirators to a planet-wide genocidal plan to destroy the interiors of billions across the world.

It is a matter of my Conscience now to understand how to proceed. If US Executive White People were truly innocent and did not have evil intentions towards all Asians and Africans and South Americans, why did they not immediately realise the horrific nature of Bill Gates plans and immediately bring him to justice? Why did they think that even though I am American, it is right to allow Bill Gates to continue? What evidence do I have for their benevolent intentions?

Date: November 13, 2021.

It is fair to say that we have Bill Gates and a small number of white wealthy backers here are certainly conspirators. But the question of whether all white people in US Executive Branch were involved in this plot is the major open question. If they were, then it is my obligation to seek their termination from US Government service and seek their execution. They have failed in two ways; first, they have failed in understanding that their primary duty by US Declaration Preamble is to secure my Natural Rights. Second, they have failed to appreciate that their duty is for Natural Rights Security of all Asians, Africans, and South Americans and other who are not American Whites as well because the United States is treaty-bound as member of United Nations where Universal Declaration of Human Rights is international law. By allowing the man who is provably directly involved – you can take my word for it because I am the victim of his crimes – to continue unpunished without resistance, they have shown their complicity in these vile, horrible, genocidal plot against Natural Rights, Life, Liberty and Pursuit of Happiness of billions of human race.

I do believe that people are innocent until proven guilty, but when white people in the US Executive continue to treat Bill Gates better than Zulf after months of horrific criminal activity, and Zulf has never harmed a single white person at all, it is quite natural that I would be suspicious that even though these people, the white people in the US Executive, do not know me personally, they do not have much interest in my Natural Rights Security and do not much care if Bill Gates is successful in his plot to do the same to all Asians at home and abroad.

1. WHITE PEOPLE NOT IN US EXECUTIVE BRANCH ARE NOT INVOLVED

I know from my own work that 70% of American white people are teaching their children tolerance and respect for others. Therefore it is clear to me that this is not a massive tribal issue. They are not involved in this drama. Neither are white people in US Judicial Branch because John Roberts showed exemplary Republic leadership and ordered white people in US Executive to enforce all laws against Bill Gates.

Thus from the point of guilt the candidates are white people of US Executive who refused to bomb relentlessly Bill Gates and obliterate him physically and then did not show much respect to my Natural Rights Security. They would have been beyond any suspicion if they had eliminated Bill Gates a year ago. But for whatever reason or unreason, they did not, and so the international judges at United Nations and Europe will certainly examine their guilt in plot to harm all non-whites in the world seriously. They might end up just bombing Washington and flattening the whole US Executive if the danger is deemed too high for dystopian racial world order. There is precedent for that in Second World War.
