

MAY 27 2021: CLEAR PERSPECTIVE OF WHY I AM SUPERIOR TO BILL GATES

ZULFIKAR MOINUDDIN AHMED

1. GREAT CONSCIENCE VERSUS NO CONSCIENCE

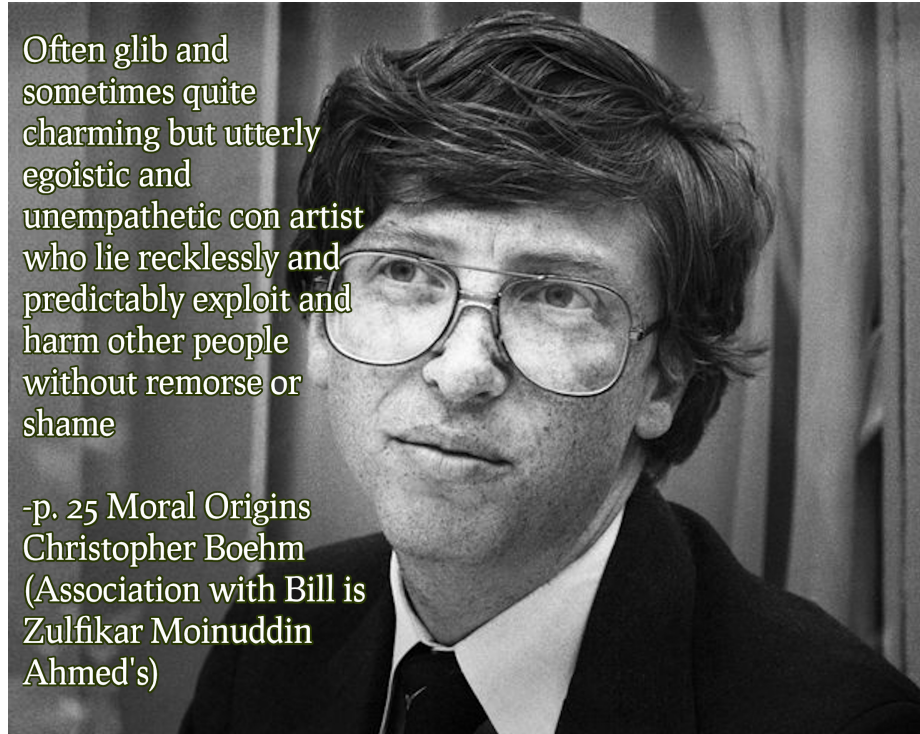

That I have a superior Conscience is without any doubts. I protested the Iraq War in 2002-2004 when my Conscience felt strongly the horrible wrongness of the war and sold newspapers on weekends for \$1 in San Francisco Streets when Abu Gharaib tortures were first revealed by International Socialist Review. I sought the abolition of Nation States for a Great Republic of Humanity and gave up my material possessions in a grand sacrifice for the benefit of my Beloved people the Human Race in 2008. The greatness of my own Conscience is deep, and has roots in three thousand years of Aristocratic bloodline to Vedic India.

2. ABSOLUTELY NO SHAME AND NEVER ANY APOLOGY FOR DENIGRATING BILL GATES

I will vow on my father's grave never to apologise or retract my denigrating comments on Bill Gates till my last breath. I have absolutely no shame or guilt and hold on to these with ferocious self-confident convictions.

Date: May 29, 2021.

3. BILL GATES IS A PSYCHOPATH

4. CHRISTOPHER BOEHM'S DESCRIPTION OF PSYCHOPATH IS ELEMENTARY
BILL GATES 101

"Whether psychopaths devote themselves to murder or street crime or con games that exploit the gullible they are (1) **unusually given to domination and control** and (2) **they all share a lack of normal moral compass** and (3) **little trace of concern for the damage they are inflicting on the trusting souls they exploit.**

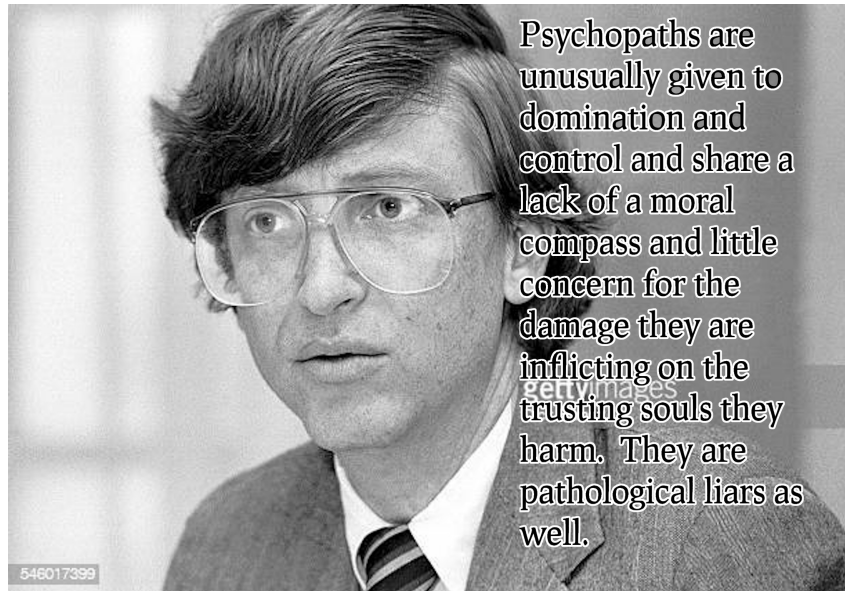

In lacking a moral conscience that includes making emotional connections with others, they (4) **lie without compunction in order to selfishly exploit others**—and (5) **they fail to feel any sympathy for those who they defraud or murder.**"

"In general their emotions are shallow with a lack of feeling that connect ordinary people with the moral rules they are able to internalize as children. Psychopathy shows up early in life, so in an important emotional sense the learning of moral rules is incomplete.

"He's intelligent, self-centered, and good at putting on a convincing face, even though sometimes his lying becomes obvious...

"Psychopaths are absolute masters at dissembling, and they understand how moral feelings operate, even though they live in an emotional wasteland. Curiously, this enables them to be true masters of manipulating the feelings of others.

"Typical psychopaths are not born with damage to their prefrontal cortex so they are natural born immoralists.

The above is from Christopher Boehm's *Moral Origins* p.26-27. These are all characteristics of Bill Gates modus operandi.

5. MY WORD IS GOOD ENOUGH I WILL NOT ATTEMPT TO PROVE ANYTHING

These are my personal assessment of Bill Gates. I don't feel that I need to prove all sorts of details about them. I am comfortable with it and that is good enough.

Now what is interesting is that these are the ordinary psychological description of Bill Gates as a person; he was psychopath since birth. What interesting insight I can provide is that he is actually a *Demon Soul* born in a human body in 1955. That is deeper insight into his psyche, for he is not actually an ordinary human soul at all. It's true that his DNA is English-Scottish and so on, but his Soul is not a Human Soul. This is why he seeks Global Autocracy and is Evil Unremorseful Vile White Supremacist and he has a taste for murder. He is morally not just deficient but Repulsive, Disgusting, Malignant, and Abominable. These are not odd or strange at all because he is a Demon Soul.

6. MY MORAL SUPERIORITY OVER BILL GATES IS TRIVIAL

I am a Good Soul and he is an Evil Soul. Therefore I am superior to Bill Gates.

7. MAY 27 2021: BILL GATES CUTS ME MANY TIMES WITH ILLICIT POWER REDUCE MORAL SUPERIORITY

Bill Gates has harmed me by cutting me up for hours in order to ensure I am not rated Morally Superior to him. Senate has doctors fixing some of this. He shows his Moral Inferiority in his own actions.

8. US SENATE CONSIDER SHOWED BILL GATES' SHORT TERM PLOY

Bill Gates had been cutting up my brain and keeping parts that he thought were good in jars in meta with the idea that he would kill me and examine what to do with the parts of my brain that he considered good for later.

This is quite butcher-Demonic. I cannot even Professor Moriarty of Sherlock Holmes descending to this level of disgustingness. Bill Gates is a Vile Evil Man who ought to be killed for he is without any inner constraints from doing these sorts of projects. My mother is sick, while this is going on, and I had worked for years to discover Medium Frequency Strategy for which I am owed \$120 million. Bill Gates ought to be *slaughtered* for denying me my compensation, using US War meta against an American, and then doing such horrific evil things to me that he can be considered not just Evil but a clear and present threat to the American people. His self-promoting propaganda is not strong enough to overcome these revelations to the American public.

9. US SENATE'S CONSTANT DELAYS IN KILLING BILL GATES HAS COST

I will seek \$1 trillion in punitive compensation from the United States Government for failing to secure my Natural Right from the ghastly murderous White Supremacist butcher Bill Gates repeatedly by not killing him and allowing him more time to do more horrific abominable evils against my interests after being repeatedly warned in public emails that included American Enterprise Institute. I am not the guinea pig of United States; United States Government had known for a long time that Bill Gates was a murderous criminal and the US Senate repeatedly endangered my life and Natural Rights in order to accomodate their other interests. I have no obligations to demur; I will demand \$1 trillion from US Government for miscarriage of justice and delaying the natural, good, just decision to kill Bill Gates by many lethal options including bombing him and sending US Defense lethal forces to end his reign of terror.

10. BILL GATES' FANTASTIC CONCEPTIONS OF WHITE RACE HISTORY

Around 1750 BC the literate Vedic Civilisation was already beginning to produce mythologies of virtuous princes and gods. Vangala arose by 500 BC. My ancestors have royal lineage in the Vedic Indian Civilisation. The Puranas and Vedas were developed long before England had any literate Civilisation at all. My ancestors were not just infinitely more literate than Bill Gate's ancestors centuries before the birth of Christ, but in 4300 BC Mesopotamia was much more advanced than any part of Europe. Agriculture spread northwest from Anatolia to Greece. All the way to around 900 AD, Northwest Europe was backward compared to Middle East – yes the Muslims had a vibrant advanced world civilisation because they covered Mesopotamia, Egypt and went all the way to Indian Ocean. Europe's rise occurred after the Renaissance, and these are well known. Bill Gates' fantastic ideas about White Race are fictional. He claims that Hammurabi was white. Even after I had shown measured results showing that Ethnicity has at most 9.5% effect on variation of morality, Bill Gates, being illiterate and dull, cannot understand the implications that there are no racial superiority claims that will ever be valid. He does not even understand the basis of America, the security of Natural Rights and yet claims, absurdly, to be *more* American than myself. This is not even remotely sensible. I know very very few Americans more clear about Natural Rights than myself, and more conscientious about reading Ralph Waldo Emerson carefully than myself. It is impossible that the glib charlatan Bill Gates, dishonest and malevolent to the core, will ever be more American than myself.

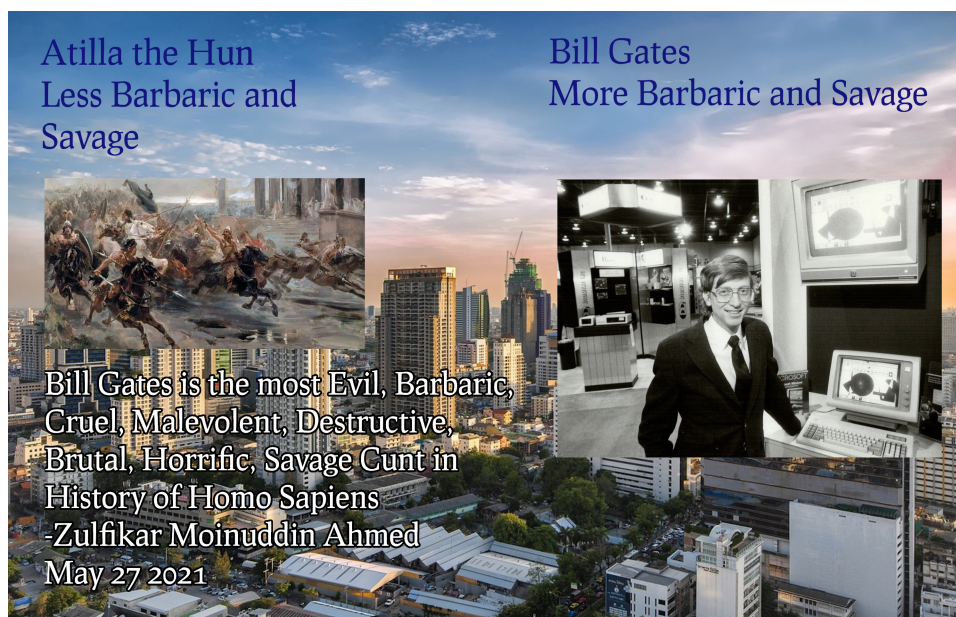

11. I AM ARCHANGEL SOUL

I will not attempt to prove this at all, but there are literally millions of inhabited Angelic Worlds in the Universe, many with humanoid civilisations. I do not memorise vast amounts of Encyclopaedic Knowledge about all these worlds. Most are quite a bit older than Earth's Human Race, and their histories are much more complex than Earth's. Do you think I would be effective as an Archangel if I spent my time memorising statistics of millions of worlds. I would never do that to myself. I keep my mind free and enjoy my lives without clutter. I learn some things that interest me and ignore the rest. But here on Earth I did go through study at one of the best universities in the world, Princeton University. And I did study and graduate with high honours. Bill Gates claims to be 'thousands of times better' without a goddam college degree. These things are puerile bluster.

12. BILL GATES' AMERICAN HISTORY IS ATROCIOUS

Bill Gates says that United States was not the colony of England but the other way around in 1770s. I don't even know where to start with what is wrong with this scenario. American Revolution did produce Independence, but England was globally powerful *all the way to 1940s* and it was the Second World War and Russian-American victory and problems faced financially by England that led to Churchill accepting United States as the more powerful party in the end. Bill Gates was born in 1955, and he simply does not understand much about American history at all. Bill Gates could benefit from reading a good American History AP textbook. Here is a list [1]. Without good command of basic history, Bill Gates' ideas about race and America and possibilities for future of politics for the world is quite dangerous because he is reckless, malevolent, and extremely harmful, and the incompetent US Senate does not want to secure my Natural Rights by killing him.

13. COMPARISON WITH ATILLA THE HUN

14. WHAT OUGHT TO BE BILL GATES' PUNISHMENT FOR HIS INSOLENT AGAINST ME?

Bill Gates needs to be punished in a cruel and unusual manner, in my view. Instead of just physical death he should have all of his fake propaganda exposed completely, his malevolent soul needs to be exposed, all credit for actual work from which he enriched himself ought to go to those who actually deserve the credit, his entire life ought to be cleansed of all the lies – which is all of who he is to the public–and then after he is put to death, history should be rewritten without him at all and he should be considered a successful charlatan who taught us how to avoid future problems from these psychopaths and con men without conscience. His menial achievements ought to be carefully examined to ensure they are actually HIS OWN achievements and not other people's. In the end who is Bill Gates? Just a Mirage.
