

**ANALYSIS OF DIPLOMACY BETWEEN EUROPE, AMERICA,
AND ASIA: AMERICAN GOVERNMENT LEARN FROM A
MASTER I FAR HIGHER THAN GEORGE KENNAN AND
DEAN ACHESON AT THIS**

ZULFIKAR MOINUDDIN AHMED

I have instructed Asia to prepare to destroy European Civilisation Heritage, Universities, Libraries, Art Collectives if there is a Western War on Asia. This will mean a lot to Europe, and not a lot to America. I will use this to detach Europe from America for my Eurasian Defense. The key is to turn Europe against America breaking them from NATO altogether. Asia should be open to rapprochement with Europe but not America and sign a treaty with Europe that Asia will not destroy European Civilisation in the manner I outlined unless there is *European Complicity* in an American War and further that Asia expects Europe never to side with America again at all in the future.

This will reduce threat of an American War in Asia. Now America does not respect European Civilisation all that much. They might be White Supremacists but they are not even able to appreciate historical depth of European Civilisation. Maybe T. S. Eliot and a few people can, but Americans think that a chair made in 1960s is *vintage*. So they are not capable of appreciating treasures of European Civilisation. They think that there is something special about being *white*. They think that they got their Civilisational heritage from their *genes*. They think a castle or a thousand years in Germany is like Disneyland Castles or Las Vegas. They won't care about the threat from Asia. The threat from Asia ought to put a wedge between America and Europe strong enough to compel Europe to *abandon America totally*.

1. ENGLAND GOOD HOLD AMERICAN GOVERNMENT RESPONSIBLE FOR WAR
POWER FROM AMERICA, GERMANY, ENGLAND USED AGAINST ME

England, good hold American Government accountable for allowing American War Power along with English and German War Power used against me by irresponsible brat Bill Gates.

2. AMERICAN GOVERNMENT ONE WAR IN ASIA AND I'LL WIPE YOU OUT

American Government, I'll wipe you totally out of existence if I see even a single war in Asia at all. This is a promise. That means a substantial part of 1.4 million white people in American Government. Dead. Not moving. Okay?

See this Brookings Institute Conference on Avoiding Great Power War in Asia? [1]. Well I don't care about any of their claptrap. Even if there is a small skirmish in a small nation in Asia, I will wipe out 1.4 million white Americans in American Government and yawn. Do you understand me?

Date: December 5, 2021.

3. EVEN A SMALL AMERICAN SKIRMISH IN OUTER MONGOLIA AND I WILL KILL ALL SENIOR WHITE PEOPLE IN AMERICAN GOVERNMENT

Not even a small skirmish by American forces is allowed. The penalty is I will wipe out all senior level *white* American Government officials as a consequence. And I will do it without a single pistol in my hand. You will just die in various ways and I will not break any laws.

You can ignore my warnings at your peril.

4. I ALREADY SANG THE SONG AMERICAN GOVERNMENT

You didn't hear my song "Welcome To The Hotel Zulf's World Order"? Such a lovely place (Such a lovely place). You can scream and you can shout but it's too late now, American Government. You can go and tell the king that the sky has fallen in. It's my World Order and I don't want any American military aggression in Asia. I had to tolerate American War Power in my interior, and German and English too. You better behave, American Government. I am quite irritated.

5. LET ME TELL YOU WHAT THE STORY IS GOING TO BE

Every high school in Asia and Europe will learn about how good intentions of founders of America, with US Declaration and Constitution were sabotaged by evil people in 1950, when NSC-60 stole American People's money for evil doing and wars and Asian Manifest Destiny Genocide plans that secretly were planned and Korean War, Vietnam War, and Iraq and Afghanistan Wars resulted, and finally because Archangel Zulf was alive, the Civilised World turned to the corruption of American Government that produced the den of evil warmongers that then United Nations, Europe and Asia had to slowly clean up, bringing peace and harmony to the glorious world.

Nice story, no? Everyone will love the story. Asians, Europeans, and yes, even the American People. And what will happen to you then huh?
