

ARCHANGEL LOG: NOVEMBER 25 2021

ZULFIKAR MOINUDDIN AHMED

I am reading Joseph Campbell's *The Romance of the Grail: The Magic And Romance of Arthurian Myth*. Campbell refers to an inscription from France in the first century AD referring to an Artehe, a bear god. Fast forwarding to sixth and eighth centuries chronicles of Gildas and Nennius, we have Arthur assisting against invasion of southern England by Anglo-Saxons and Jutes. Refugees from southwest England relocated to Brittany in France, p. 129. And Arthurian legends arise as Hope of Britons, the once and future king who would restore them to their homeland.

I am rather pleased to learn this as Archangel. Now I just returned from the toilet and discovered significant blood in my stool, so it is clear my biological health was substantially damaged with the various harmful efforts of this evil Sorcerer and Demon, *Bill Gates*.

Nevertheless, I am pleased to understand that the Human Race has various sorts of *Hopes*, and this myth of Arthur is not isolated but around the planet, various peoples have had various hopes that there would be some restoration of misfortunes of the past, which was surely not only for Briton refugees from sixth to eighth centuries.

It stands to reason, I surmise, that since I, Archangel am alive still on this Angelic World, that I must make some effort to fulfill some of these hopes of the past quite broadly across the world.

Let us calculate this. I am quite certain Heaven and other Archangels will agree that if an Archangel is indeed on a primitive Angelic World, then various sorts of hopes associated with once and future king and so on ought to be taken seriously and fulfilled by the Archangel. It would be quite senseless that an Archangel of Heaven appears on an Angelic world and generally *completely ignores* all manner of troubles that led to people seeking *Hope* against various difficulties past and future.

Now I do not possess any finances at all until Queen Elizabeth and England provide me with employment as Special Attache to United Nations and Agent 006 of Her Majesty's Royal Service, when, if Her Majesty succeeds would give me \$620 million in *Zulf's Piggy Bank (Do Not Touch)* account of Bank of England.

I must therefore think of other ways of fulfilling various of these sorts of *Hopes* of my beloved people the Human Race.

Now some of these I have attempted with use of rhetoric and propaganda. My declaration of *Zulf's Natural Rights World Order* might produce some results. But an Archangel can never really rest until there is a fulfillment to these sorts of hopes.

For the dangerous threat of White Racial World Order that continues this dreadful *Manifest Destiny* type project of American Whites will instantaneously produce demands for once and future king sort of figure in *Asia*. There I made some push already.

Date: November 25, 2021.

Well okay, so this is Thanksgiving, when American White People will celebrate the genocide of the Native Americans with feasts. So perhaps we can provide some more delicate situation where legitimate hopes of the American White People are fulfilled but these sorts of *Genocidal Hopes* are nixed before they begin.

This is quite a delicate issue.
