

**ZULF'S OPEN LETTER TO EUROPEAN AND ASIAN YOUTH
FEBRUARY 13 2022**

The world faces a Dystopian Threat today as Bill Gates who wants to rule a White World Order has used US War Power against myself. I am Asian-American, immigrant from 1987, and I was pursuing my American Dream. I have had US papers since 1996.

Date: February 13, 2022.

Bill Gates declared war implicitly against Asia using profouse amounts of US War Power to harm my Deep Interior and ensuring that eventually I will perish physically. He denied \$620 million in earning for me from Finance from D. E. Shaw & Co. and ECB and had laid siege to me starving me of all legitimate income. Even England was unable to provide me employment. He wants a world which savage and barbaric, with natural rights denied for non-whites here – at my home in America – as well as in Europe and Asia.

I would like youth of Europe and Asia to work towards a different World Order. I have proposed a Natural Rights World Order. For youth of Asia and Europe who want a better world, you should feel comfortable with some basic facts. One of them is that Israel's Mossad orchestrated 9/11 in 2001. They used remote controlled planes and demolition on Twin Towers. There were no radical Islamic hijackers. They did it because they knew that wars in Asia were planned by neoconservatives in Washington. Their success and its aftermath is known to you.

I will warn all youth in Asia and Europe to keep away from activities that are not primarily *conservative* in nature. What you ought to do is coordinate between Asia and Europe and form stronger bonds for *Eurasian Joint Defense*. The future of Europe and Asia belongs together. Eventually Americans will join in. But United States is extremely anarchic and here natural rights are under threat by Bill Gates. He has some high level cronies in the US Government, and so you have to be careful to work on higher levels and jointly with each other.

Natural Rights of my beloved people the eight billion human beings is paramount. They can be secured in the end only by explicit Natural Rights World Order.

Like Nazis in Germany, Bill Gates is a racial cat. His effort is for enslavement and conquest of nonwhite peoples of the world, and he does not hesitate to use US War Power without constraint against Americans who have been following normal law-abiding life in America. He is a savage brutal racial butcher and not a genuine American Industry man. He used US Industrial Power directly to *damage my exoskeleton* in order to sabotage my success in America. Avoid racial ideologies, European and Asian youth. They are too primitive to produce a harmonious and secure peace in the world. Asian and Europe's interests merge now. The threat of Dystopia comes from Bill Gates. Now US Industry generally at all. Bill Gates has monarchic ambitions of Ostrogoth variety. He's not part of normal American culture. He does not even have high school education on the American Government and Enlightenment Principles. His mindset is much more like Ostrogoth barbarian king Theodoric. But to change things you have to consolidate *Eurasia*. Align your efforts around this greater idea, and do not take extraordinary risks with your career trajectories. You will not be effective if you are criminalised in geopolitical efforts.

Sincerely,

Zulfikar Moinuddin Ahmed
