PUTS ASIA IN CHARGE OF NATURAL RIGHTS OF EIGHT  
BILLION PEOPLE**

Asia,

I am extremely displeased at your lackluster efforts in various natural rights failures around the world. I'm putting Asia in charge of natural rights security of all Eurasians and everyone else on Earth as well. I want you to create some institututes to monitor natural rights across the world. Collaborate with Western organisations for Human Rights but have independent checks to close biases.

I want natural rights of eight billion in tip-top shape. Asian invented Civilisation and you have special responsibility for keeping Civilisation in good shape. I want a Natural Rights World Order Asia that is Universal.

No more failures. Why did you let things degenerate in Ukraine? That's shameful. You should not let this happen again.

Thanks,

Zulfikar Moinuddin Ahmed
