

ZULF IS NOT THAT OPTIMISTIC ABOUT WHAT IMF CAN DELIVER ON MY CASE

ZULFIKAR MOINUDDIN AHMED

Look, IMF, I am daily verbally abused while having disability issues by an aunt who thinks that verbal abuse and denigration is the way to gain respect of people. I don't have my income of \$620 million. Madam Lagarde was unable to get a transfer to Bank of America from ECB. No one ever emails me with any confirmations that you are able to do anything for me at all. You are tied to various meta even to publish something about me on the web or email me.

So why don't you email me that you have such and such exact position versus Bill Gates? See, I don't think you can do that at all. And that is why I am not waiting for you to actually come through. You can't really prove to me that you can deliver something serious here. Bill Gates had obstructed my earnings for more than a year and the whole world of Finance could do nothing about it.

I will be glad if you are able to give me an ordinary email with what you want to do. I am not impressed by great principles in meta only and no written confirmation. That's worthless to me.

1. WORLD'S FINANCE IS VULNERABLE TO BILL GATES CONTROLLING ALL MONEY TRANSFERS

You see Bill Gates is a lawless criminal who uses any criminal method to disrupt meta for any Finance organisation at will. He will control all money in the world in the end if Finance keeps sabotaging itself by *relying on meta* to do all transactions and orders. Why did you make such dumb stupid idiotic moronic decisions to tie all activity to meta? You're vulnerable sitting ducks now for power criminals like Bill Gates. See you can't even take a shit without meta. He can sabotage arbitrary meta structures.

Why would you do that to world's Finance? It's the dumbest Darwinian loser move in history of Civilisation. You always need to use ordinary paper, email, telephone without tying things to any meta. Meta is a convenience. Whose bright idea was this in Finance. Just grab all these sons of bitches, tie heavy rocks to their feet and sink them in the East River on a winter's night for their sabotage of all part's of world's Finance. I have never heard of collective suicidal idiocy of this type ever in my life.

2. WHAT DO YOU MEAN MORE SECURE WITH META?

Do you really think that Meta, which can be anything at all based on whoever has all manner of time to play around can master without doing any work, is *more secure*? What the fuck sort of assumption is that? Do you understand what the Finance chiefs had done to the world? What if some Indian rishis did meta all

Date: December 14, 2021.

day in the Himalayas? They could do meta like the gods of all sorts of meta, and suddenly all your institutions are vulnerable. Who the hell comes up with these assumptions. The only solid security is well understood. You know people, you talk to them on the phone, check their ID, get guards on transfers of cash, etc. Why would you think meta is more secure? What if someone created a religion called "Metas Are the Path To True Spirituality" and they will spiritual all of Finance with their religious cult with this sort of scene, let me show you. Don't laugh. What you did was the dumbest thing the world has ever seen.

That's the masked ball scene from Stanley Kubrick's *Eyes Wide Shut*. Billions of people rely on Finance being reliable. Why would you do such an incredibly dangerous decision as to rely only on meta and not do standard ordinary normal things. See, ordinary people are less dangerous than meta people. Institutions that rely on meta put everyone's lives at risk.

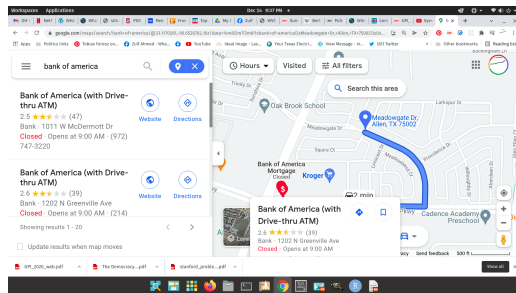

Of course I'm right. I've been doing Finance and other work since 1995 and no one told me that the head honchos of Finance would take the step of giving up all tried and true methods of secure finance from Mesopotamia to twentieth century, give all of that up and go into the forests and live in totally unknown insecure and extremely prone to danger things. That's so irresponsible that there has never been a worse judgment in the entire five thousand years of finance. Why would you do such an incredibly dumbass thing?

3. WHY DON'T YOU DELIVER PHYSICAL CASH TO MY LOCAL BANK OF AMERICA?

I'll give you the address. It's

1202 N. Greenville Avenue
Allen TX 75002

I am living on Meadowgate Drive.

Arrange cash delivery in \$20 notes to the Bank of America to my name. I'll go there and set up a new account. Zulfikar Moinuddin Ahmed, DOB Nov 19 1973, USCIS# 046-077-179. I am really sick of Finance generally being caught up in meta and Bill Gates has all manner of powers to cut up people and take control of their personal finance meta. Why don't you do me a favour and stop this nonsense. It's been a year since I have no income at all from my great work for D. E. Shaw and it's the fault of Finance head honchos not being able to handle their dumb collective decision. Deliver my money please without trying to come up with more clever ideas of how you can screw up every Finance professional's life.
