

PENTAGON UN SECURITY COUNCIL ALREADY HAS A DEATH PENALTY JUDGMENT FOR WAR CRIMES

Pentagon, UN Security Council has already given a judgment of death penalty for Bill Gates from their expert consider of his activity in my Deep Interior where he invaded with heavy military equipment and US Industrial meta and was destructive in ways they deemed were War Crimes and Crimes Against Humanity.

Then UN Security Council sought US Executive Branch to handle the judgment. Then US Executive Branch White People were not able to do it and protected him in various ways for a long long time. Then the situation changed after I began all sorts of threats and populist PR against US Executive Whites. Then they washed their hands off and gave Pentagon the burden.

So you should just kill him and implement UN Security Council Death Penalty judgment against Bill Gates.

I fail to understand why a criminal cat like Bill Gates who breaks 1000 laws a day was not killed three decades ago. I also don't understand how you are just dysfunctional and one organisation has no respect for another, people do totally random things. It's anarchy in the United States Government. What the fuck? I am American you stupid fucks. You cannot handle a criminal who does horrible crimes against an American at all? You need ten months to mull over what to do while a man is being butchered alive?
