

## ZULF'S TOP EXPLANATION FOR WHY US GOVERNMENT IS NOT BRINGING BILL GATES TO JUSTICE

United States of America, founded on US Declaration, is explicitly organised to secure American people's Natural Rights. I am American. I have valid immigration papers. Therefore, since US Declaration states clearly that Governments are formed among men to secure Natural Rights of the people, has fundamental obligation to secure my Natural Rights.

Here the case cannot be clearer. I do not break American Law at all. Bill Gates is a habitual murderer. He is a criminal and I am not a criminal. We are both American: I am American by valid immigration procedure and grew up in New York from 1987 and he is American by birth from Seattle, Washington from 1955. It is convention in civilised nations that the government authorities bring murderers to justice. They *arrest them* then they *put them to trial* and then either they put them to jail or they execute them with capital punishment once they are convicted.

Now I am trying to understand why United States Government, that of a Multi-Ethnic Classical Liberal Democratic Republic would not bring Bill Gates the murderer to justice when he has been harming Zulf, the American who does not break US Law and has many projects that will be beneficial to America. Why would they do this horrible thing? Why would they break their own foundational principles to go out of their way not to bring a murderer to justice when he commits crimes against another American?

I will explore here two possible explanations. One possible explanation, the one they are offering is (a) Bill Gates is too important for the US Economy to bring to justice and kill or confine, (b) United States Government is extremely racially biased and cannot actually accept non-white people with American legal status as equal before the law including on violations of Natural Rights and is corrupted by White Supremacist prejudices.

I will be arguing in this note that in fact (b) is true and it is a sham excuse that Bill Gates is particularly important to the US Economy that US Government is offering to hide the fact that they are in fact a Secret Cult of White Supremacists and therefore they will corrupt every foundation of United States of America in US Declaration and US Constitution, they will violate every sacred part of a Multi-Ethnic Classical Liberal Democratic Republic, in order to secure Bill Gates even though he is a vile criminal and they will use totally unjustified excuse for him to continue on his project to murder and maim all non-whites with extreme prejudice under some hot air cover, a meaningless cover, that he is somehow important to the US Economy.

I will argue that he, being a murderous criminal and a charlatan is *destructive* to US Technology, to US Industry, and what is beneficial to the US Economy is total neutralisation and destruction and death of Bill Gates and not his continued support by the US Government. The structure of this argument is clear: I will claim that Bill Gates is positively horrible for US Economy because he is a malevolent

murderer and not productive at all and he is an obstruction to productive people all day and all night and clogs up the US Economy by continuously using his powers to disrupt legitimate business in the United States by people who are not criminal mass murderers. US Economy is roughly a \$21 trillion economy and his net worth is \$0.13 trillion so he is small. However, US Government is willing to not bring him to justice breaking its own foundations, risking our expulsion from UN Security Council and other organisations. These irrational seeming decisions by the US Government cannot be understood until you realise that they are deeply racially prejudiced and that is the source of their reluctance to bring a rich white man to justice regardless of how criminal he is when the victim is a non-white American, damn the consequences such as total expulsion of United States from all bodies of International Law. The prejudices are deep and has historical basis in familiar history. The difference in this case is that US Government will be held to account explicitly because Antonio Guterres and UN Human Rights have already determined that Bill Gates has committed Crimes Against Humanity and many other atrocious evil crimes that are far beyond that of ordinary murder. Thus US Government ought to be held to account overall because it is too corrupted by White Supremacy.

I am formulating my point of view more clearly. I will return to give more details. The historical record shows that racial prejudices have been significant in US Government in the past, so my explanation will be infinitely more palatable and much more reasonable than extraordinary protection to Bill Gates for his importance to the US Economy, which is negligible and not positive.
