Ben Bernanke,

You will slaughter the US Government Officials behind how Bill Gates hurt me. You will get Russia to kill Bill Gates – don't ask United States Government they can't deliver.

Girls are pretty in Ukraine, I will vouch for safety of Ukraine.

Vladimir Putin. Stop please. Respond to an official request from Ben Bernanke to kill Bill Gates. There is a lot of propaganda about War in Ukraine right now. Just back off till Russia kills Bill Gates.

Asia, give a guarantee to Russia that you will step in to secure Russia please. Just do it. I'm Zulfikar Moinuddin Ahmed.

Ben Bernanke, do we have an understanding?

Zulfikar Moinuddin Ahmed

1. DIRECT ADDRESS TO VLADIMIR PUTIN

President Putin of Russia,

I understand your feelings about mistreatment of Donbas and other eastern Ukrainian people but you are not going to get very far in natural rights by local focus and invasion is erroneous here. Why don't you work on Natural Rights World Order Globally. Let Asia get involved through UN peacekeeping troops in Eastern Ukraine. Pull out your troops. Your play is too local. You should be more worried about White Racial World Order scumbag like Bill Gates in America who is plotting genocide of all non-whites in America.

This is not good move for Russia at all. It's too small. Work on Eurasian Defensive Alliance.

2. RUSSIA PULL OUT TROOPS

Russia pull out troops from Eastern Ukraine. Why don't you provide details of mistreatment by Ukrainian government of the Eastern Ukrainians. All Asian Nations can you examine mistreatment of Eastern Ukrainians at UN General Assembly and talk to Ukraine government? Ukraine government, offer natural rights guarantee for Eastern Ukrainians at the United Nations. Asia can you strengthen broader guarantees for natural rights for Ukraine and Eastern Europeans with Asians?

I need to see some leadership here Asia. Let's move.

Date: February 24, 2022.

3. UNITED NATIONS CAN YOU DO A SURVEY OF EASTERN UKRAINIANS
ABOUT THEIR NATURAL RIGHTS ISSUES?

Russia, pull out. Pull out. We'll fix this. You're going to not produce results by 'de-Nazification' etc. United Nations, send in social workers and interview 1500 Eastern Ukrainians right away and Asia I am not impressed. You're Asia. You have to show leadership. This is embarrassing. Ukraine is right next to you. I want Asia to track natural rights situation collectively. Asian invented Civilisation. You have to have better leadership. What sort of nonsense is this that you did not make ruckus about human rights in Eastern European countries?
