

DIARY JUNE 26 2021: EXTREME PAIN IN GASTROCNEMIUS MUSCLE AND SWOLLEN FEET

ZULFIKAR MOINUDDIN AHMED

Bill Gates was asked many times to remove himself from my eye and he refused. I woke up today 7:00 AM with extreme pain in the gastrocnemius muscle of my right leg. I did not even know the name of the goddam muscle and had to look it up. It felt as though the muscle is deformed in some way and the intense pain made me scream out aloud I was paralysed for a brief few minutes and I felt the pain pulsating and still feel half an hour later a sore and strain that gives an uncomfortable feeling on my right leg.

My brother came and noted that people with untreated diabetes could have all sorts of things and even sometimes need to have their leg amputated.

1. SWOLLEN FEET

I noted extremely sudden swollen feet yesterday when taking a shower. My body never had this bloated swollen feel before.

2. HOW IS BILL GATES INVOLVED?

Bill Gates cut into my eyes and cause enormous amounts of harm to my deep interior and this might have had secondary and tertiary health effects. I want all authorities examine in minute detail Bill Gates' use of illegitimate powers including thirteenth century forbidden European black magic to try to murder me. Even if he did not directly do this, he blockaded my \$120 million from D. E. Shaw & Co.

and harmed me in many other ways and ought to be held responsible for any and all health problems or death because he refused to back off even after US Defense Department asked him. Furthermore, he blockaded my full professorship tenure not just for Four-Sphere Theory but many new results that I had obtained including the first time Aristotle's Virtue Theory was vindicated on data from World Values Survey. These Evil Malevolent things Bill Gates had done and so he ought to be held responsible for any health problem I have that might lead to a fatality.

3. LIKELIHOOD OF DEATH

I would say my estimate of likelihood of death within the year is probably somewhere like 5% due to complications in health, certainly Bill Gates ought to be considered as a primary party responsible for my death if it occurs because he had no business cutting into my eyes at all and use evil malevolent powers to harm my health and life. He ought to be definitely executed if I die. He ought to be executed even if I do not die. I will consider his death to be a gift of mine to my Beloved People the Human Race.
